Strategic Report For the Year Ended 31 October 2021

The Directors present their Strategic Report together with the audited financial statement for the year ended 31 October 2021.

Principal activity

The principal activity of the Company is the provision of a technology platform, travel content and other services to self-employed travel professionals and independent travel businesses on a franchise basis, who in turn provide holidays and corporate travel services to the public and to businesses.

Key performance indicators

Total transaction value (TTV)	2021 £000 133,990	2020 £000 168,050	Movement £000 (34,060)	Movement % (20.3)
Revenue	53,557	103,450	(49,893)	(48.2)
Gross profit	8,906	13,975	(5,069)	(36.3)
Loss before tax	(10,713)	(9,648)	(1,065)	(11.0)
Adjusted EBITDA*	(8,020)	(2,825)	5,195	(183.9)
Employee numbers (average)	191	304	(113)	(37.2)

^{*}Defined as EBITDA plus Trust Income, being the interest received from funds held in trust accounts, less exceptional items.

Business review

The Company's Total Transaction Value ("TTV") was 20.3% lower than the prior year at £133,990k (2020 - £168,050k) for the year and revenue, being the commission we earn as an agent and the business we transact as principal, declined by 48.2%, to £53,557k (2020 - £103,450k). The Company has recorded a pre-tax loss of £10,713k (2020 - £9,648k).

EBITDA, the key measure of profitability in the business adjusted for trust income and exceptional items, was £(8,020k) (2020 - £(2,825k)). Gross profit for the year was £8,906k (2020 - £13,975k), with the gross margin % increase indicating customer pent-up demand for higher value vacations.

During the year, the Company completed a restructuring exercise as part of a cost reduction programme resulting in a significant number of employees exiting the business.

The flexibility and asset light nature of the business model together with trust account protection for customers, positions the Company well to see through the COVID-19 disruption and prosper when normal market conditions return.

COVID-19 update

The ongoing COVID-19 pandemic has continued to cause uncertainty to many industries, but particularly travel, throughout 2021 and into 2022. The resulting impact of the virus on the operations and measures taken by various governments to contain the virus have negatively affected the company's results in the reporting period and up to the current day.

Strategic Report (continued) For the Year Ended 31 October 2021

COVID-19 update (continued)

The currently known impacts of COVID-19 on the business are:

- Customer sentiment customers have in some cases been less willing to or unable toconfirm travel
 plans because of uncertainty over travel restrictions, quarantine requirements and/or testing regimes.
- Cancellations severe travel restrictions to control the spread of the virus have prevented many
 customers from fulfilling travel plans, resulting in cancellations or re-bookings.

Other risks to trading and recovery are under close review and include:

- Travel Counsellor retention Travel Counsellors as independent business owners may be unable to
 continue in operation for an extended time with no or limited earnings and may seek other forms of
 income.
- **Travel Counsellor recruitment** The demand from potential Travel Counsellors to join the platform may reduce, particularly amongst those considering a move into the travel industry.
- Supplier failure failure of some suppliers is likely, reducing options available for Travel Counsellors to
 meet customer needs. Other suppliers may look to negotiate less favourableterms, or seek forms of
 security due to the increased risk profile of the industry and access to insurance.

These impacts are mitigated by the Company's strong liquidity position ahead of the crisis, including that provided by the Company's ring-fenced trust accounts of consumer funds, the Company's flexible low fixed cost and asset light business model; and the flexible structure of the Company's banking facilities.

In particular, the Company has a long standing history of protecting customer and suppliers monies via its ring-fenced trust accounts and is not reliant on customer money to fund working capital. The Company is therefore well positioned to manage the process of cancellations and customer refunds without a material impact on working capital.

In response to the impacts and risks, the business has continued to take rapid and decisive action including:

- we have significantly reduced the cost run-rate of the business by reducing headcount and restructuring the business:
- we have exited the Australia market where long-term financial viability was uncertain;
- we have drawn down on the Revolving Credit Facility from our lenders;
- we have received a capital injection of £18.5m from our shareholders;
- we have obtained from our lenders a covenant waiver and amendment on our debt facilities.

These significant measures have been quantified and used in various trading scenarios for the purposes of the Company's finance planning.

Principal risks and uncertainties

The following risks and uncertainties may affect the Company's operating results and financial position.

Market risks - the travel market is affected by external factors, including the economic environment, extreme weather events, acts of war and terrorism, and virus outbreaks (such as SARS-CoV-2 that has led to the COVID-19 pandemic, see 'COVID-19 risk' above). All of these external factors can have an impact on business volumes. The Company manages this risk by maintaining a low fixed cost base, offering a diverse range of products and destinations, and ensuring that its Travel Counsellors are well trained and informed, enabling them to provide good advice to their clients.

Strategic Report (continued) For the Year Ended 31 October 2021

Principal risks and uncertainties (continued)

Commercial risks - the Company operates in a competitive environment in which buying habits and distribution channels are evolving over time. The potential impact of changes in the market is mitigated by a diverse range of products, the high service levels provided to the Travel Counsellors by the Company, the value added by the Travel Counsellors, the strong, long-term client relationships the Company encourages them to develop and maintain, and the flexibility derived from acting as principal as well as agent.

Foreign currency risk - the Company operates in countries outside the UK and the Company's reported financial performance is therefore influenced by movements in the exchange rate between Sterling and the overseas subsidiaries' domestic currencies.

The Company also takes on transactional currency exposures relating to the cost of foreign currency denominated product (principally accommodation). This exposure primarily relates to the Sterling:Dollar and Sterling:Euro exchange rates. The Company manages this risk by buying foreign currency to match requirements as they are generated by bookings. In periods of heightened volatility, the Company mitigates currency risk using currency options.

Regulatory environment - the travel industry is highly regulated, and the Company must comply with regulatory requirements to remain in business. The Company seeks to manage the associated risk by constantly monitoring regulatory changes, regular dialogue with the regulators and adapting the business model, operating processes and terms of trade where necessary.

Liquidity and cashflow risk - the Company manages this risk by operating trust accounts for client receipts and supplier payments, ensuring customer balances are received before cancellation costs start to accrue, maintaining accurate cash forecasts, and ensuring reasonable levels of cash and covenant headroom to accommodate any unforeseen requirements. Management continues to closely monitor its cash reserves, as any continued disruption to international travel caused by the COVID-19 pandemic would have a negative impact on the Company's ability to meet its liabilities. The Company has cash holding of £66,277k (2020 - £62,411k), which includes ringfenced trust cash for customers that have already paid. It is the Company's policy to place customer receipts for holidays that have not yet departed within a trust account, which is then used to pay suppliers post departure, or provide customer refunds, as has been the case with the unprecedented level of cancellations that have occurred as a result of the pandemic.

Credit and supplier failure risk - the Company offers credit terms to some corporate clients, exposing it to bad debt risk, and is exposed to the risk of failure of suppliers on itineraries where it acts as principal. The Company manages these risks through its supplier payment terms and by obtaining credit, airline-failure, and supplier-failure insurance cover against the residual exposure. Due to the sudden decline in travel, as a result of the COVID-19 pandemic, travel counsellors would have been paid commissions for flights that were subsequently cancelled, resulting in the funds being due back to the business and there is a risk that with the uncertainty still existing in the travel industry that the funds will not be recovered. The business has put in place reporting metrics to monitor and report on the level of outstanding debt and has since changed its commissions payment cycle which will aid to mitigate this risk going forward.

Cyber security - the Company operates in a digital environment, exposing it to criminal risk from individual and organised electronic activities. The Company manages these risks by following best practice security procedures, using third party security organisations and reducing where possible the storage and transmission of sensitive information. The Company's legal and IT security teams continue to monitor ongoing compliance with data protection laws.

Health and safety *risk* - when arranging travel as principal, the Company takes on the risk of health and safety issues arising from the product sold. The Company mitigates this risk by employing dedicated health and safety resource, utilising third party health and safety audit information in approving product for sale and obtaining tour operator insurance cover. The Company is OHSAS18001 accredited.

Strategic Report (continued) For the Year Ended 31 October 2021

Directors' statement of compliance with duty to promote the success of the Company

The Directors are aware of their duty under Section 172 (1) of the Company Act 2006, to act in the way they consider, in good faith, would be most likely to promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (amongst other matters) to:

- The likely consequence of and decisions in the long term;
- The interest of the Company's employees;
- The need to foster the Company's business relationships with suppliers, customers and others;
- The impact of the Company's operations on the community and the environment;
- The desirability of the Company maintaining a reputation for high standards of business conduct;
- The need to act fairly as between members of the Company

In discharging their s.172 (1) duties the Directors have had regard to the factors set out above, as well as other factors relevant to the decisions being made. By keeping true to our brand promise of 'with us, it's personal', the Board aims to ensure that the decisions made are consistent and intended to promote the Company's long-term success.

The consequences of decisions in the long term

The Company operates in an industry that is very dynamic and fast-moving and the Board appreciates the need to remain agile in order to respond to opportunities or emerging issues as they present themselves. The Directors fulfil their duties through a governance framework that delegates day-to-day decision-making to management of the Company, which reflects the highly regulated environment in which the Company operates. Nevertheless, the Board is mindful that many decisions will have a long-term impact, and that a number of its contractual commitments will remain with the Company for many years to come. The Board is able to also draw on the wealth of experience and awareness of senior employees within the Company, who have many years of experience and truly understand the impact of decisions in the longer term, to assist in high quality and consistent outcomes.

High standards of business conduct

The Board recognises the importance of corporate governance and believes that modern slavery and human trafficking are significant global issues presenting a challenge for businesses worldwide and has committed to continually reviewing its practices to combat slavery and human trafficking. The Board has a zero-tolerance approach to modern slavery and is committed to ensuring that its group companies act ethically and with integrity in their business dealings. Further details on the Company's Modern Slavery Statement can be found on the Company's website: http://mediaserver.travelcounsellors.co.uk/ HOC/MSAStatementFY18-19.pdf.

The Company manages its tax affairs responsibly and seeks to build constructive relationships with all tax authorities across the various countries in which it operates and does so by engaging with local tax experts in each area, to ensure compliance and accuracy of reporting. The Board expects all of its colleagues to observe the high standards contained within the Company's policies in relation to bribery and corruption, data protection, equality, diversity and inclusion, IT security, fraud and whistleblowing, each of which is reinforced through appropriate training.

Strategic Report (continued) For the Year Ended 31 October 2021

Directors' statement of compliance with duty to promote the success of the Company (continued)

Acting fairly between members of the Company

The Board recognises its legal and regulatory duties and does not take decisions or actions, such as selectively disclosing confidential or inside information that would provide any shareholder with an unfair advantage. The Board is fairly represented by members of all the different class of shareholders.

Our key stakeholders and how we engage with them

The Directors consider the Company's key stakeholders to be its employees, its customers, its suppliers and its shareholders

snarenoiders.		
Stakeholders	Stakeholder key interests	How we engage
Employees		
The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. Our suppliers are the key to having high quality products available for our customers, and we have developed very close relationships over many years of relationship	 Long-term relationships Growth Profitability of trade relationship Responsible procurement and trust 	 Regular calls with key suppliers Regular updates with key account managers Shared issue resolution approach

Sharing key data to allow a smooth flow of business activity

Regular commercial conversations to support a profitable trade relationship

building.

Strategic Report (continued) For the Year Ended 31 October 2021

Directors' statement of compliance with duty to promote the success of the Company (continued)

Stakeholders Stakeholder key interests How we engage

Shareholders

The confidence of our shareholders • is key to delivering our strategy as access to capital may be required to the long-term performance of our business. Our ultimate shareholders, through our parent Company, are in regular communication with the Board.

- Financial performance
- Governance and transparency
- Operating and financial information
- Confidence and trust in the Group's leadership team

- Monthly management reporting
- Investor board meetings
- Direct access to members of the Executive committee
- **Annual Report**

Regulators

The Civil Aviation Authority (CAA) oversees the Air Travel Organisers' Licensing (ATOL) scheme which protects customers in the event of a travel Company failure. We comply with the ATOL regulations and engage with the CAA to maintain a constructive and trusted relationship.

There are other aspects of our business that have oversight by regulators, for example, the ICO (Information Commissioner's Office) regulates compliance with privacy laws and there are also various consumer rights regulated by bodies such as Competition Markets Authority and the Advertising Standards Authority.

- Our regulators expect us to meet relevant legal requirements and to treat our customers and employees and other stakeholders in a fair way.
- Responding in a timely and constructive manner.
- Open dialogue and collaborative approach
- We engage with some regulators, such as the CAA on a more regular basis. We engage through reporting, audits and direct consultation.
- Engagement has increased in frequency during the COVID-19 pandemic.
- We also engage with the CAA and the wider travel community at industry meetings.

Strategic Report (continued) For the Year Ended 31 October 2021

Stakeholders

Stakeholder key interests

How we engage

Communities and society

We are a business that puts people at its heart and that includes how we support our people, customers and our wider communities, both in which we live and in which we send our customers to every day.

As a fast-growing travel business, it's our duty to make sure we operate in a responsible way and ensure our only impact is a positive one.

- Ethical businesses managed responsibly
- Building partnerships that support and create positive impact and outcomes for society
- Environmental impact
- Source of future employment and opportunities

Our approach to sustainability is to educate our people and customers around the importance of responsible travel, introducing more sustainable practices across the business, and identifying and signposting sustainable products and ancillaries to customers. This includes partnering with the Travel Foundation to support the charity's worldwide research and destination projects, which aim to measure and manage the impacts of tourism. working with us to roll out bespoke training programmes for our internal network and advising on the most impactful approaches to ensuring our people and customers have the insight and ability to make sustainable choices.

and signed on its behalf.

Directors' Report For the Year Ended 31 October 2021

The Directors present their report together with the audited financial statements for the year ended 31 October 2021. The Company's risks and uncertainties as well as an indication of the likely future plans and developments of the Company are presented within the Strategic Report.

Results and dividends

The results of the year's trading and the financial position of the Company are shown in the annexed financial statements.

The Company's loss for the year before taxation amounted to £10,713,000 (2020 - £9,648,000). The loss after taxation for the year of £9,240,000 (2020 - £8,014,000) has been transferred to the retained deficit reserve.

The Directors do not recommend the payment of a final dividend in respect of ordinary shares of £Nil (2020 - £Nil).

No post year-end dividend is recommended by the Directors.

Directors

The Directors who served during the year and up to the date of signing of the financial statements were:

S Byrne

E A Crosier

K Hughes

K Morris

Qualifying third party indemnity provisions

The Company has made qualifying third-party indemnity provisions for the benefit of its Directors which were made during the year and remain in force at the date of this report.

Research and development

During 2021 the Company spent £Nil (2020 - £Nil) on research and development that was included within the Statement of Comprehensive Income and additions of £1,254,000 (2020 - £1,554,000) were made relating to development that has been capitalised within intangible fixed assets. This is the research and development on the Company's internal systems.

Going concern

The directors have prepared the financial statements on the going concern basis having concluded that the Company has access to adequate resources to continue in operational existence for the foreseeable future. The Company is part of the Cannes Topco Group (the 'Group') and in forming their conclusion on going concern, the directors have taken into account the Group's and Company's current levels of liquidity (including that provided by the Group's ring-fenced trust accounts for consumer funds), the flexible structure of the Group's banking facilities (particularly with regards to potential relief in respect of covenant tests), support of the principal shareholders, and financial modelling based on several factors, assumptions and estimates reflecting the information currently available to the directors. In particular, the Group has a long-standing history of protecting customer and supplier monies via its ring-fenced trust accounts and is not reliant on customer money to fund its working capital.

Directors' Report (continued) For the Year Ended 31 October 2021

Going concern (continued)

As discussed in note 2.4 of the financial statements, the COVID-19 crisis continues to disrupt the global travel industry, with no historic data to support a recovery timeline. At its most severe and long-term, the inability for customers to complete their travel plans could hinder the Group and in turn the Company's ability to generate cash. Given the current financial position of the Group and Company, this could result in a material uncertainty to remain within the financial covenants within the banking facility agreement and within the covenants set by the CAA. Therefore as a result of the material uncertainty at the Group, this in turn creates a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern, such that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

Financial risk management objectives and policies

The Company's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risk: The use of financial derivatives is governed by the Company's policies approved by the board of Directors, which provide written principles on the use of financial derivatives to manage these risks. The Company does not use derivative financial instruments for speculative purposes.

Credit risk

The Company offers credit terms to some corporate clients, exposing it to bad debt risk, and is exposed to the risk of failure of suppliers on itineraries where it acts as principal. The Company manages these risks through its supplier payment terms and by obtaining credit, airline-failure, and supplier-failure insurance cover against the residual exposure. Due to the sudden decline in travel, as a result of the COVID-19 pandemic. Travel Counsellors would have been paid commissions for flights that were subsequently cancelled, resulting in the funds being due back to the business and there is a risk that with the uncertainty still existing in the travel industry that the funds will not be recovered. The business has put in place reporting metrics to monitor and report on the level of outstanding debt and have now since changed its commissions payment cycle which will aid to mitigate this risk going forward.

Cashflow and liquidity risk

The Company manages this risk by operating trust accounts for client receipts and supplier payments, ensuring customer balances are received before cancellation costs start to accrue, maintaining accurate cash forecasts, and ensuring reasonable levels of cash and covenant headroom to accommodate any unforeseen requirements. Management continues to closely monitor its cash reserves, as any continued disruption to international travel caused by the COVID-19 pandemic would have a negative impact on the Company's ability to meet its liabilities. The Company has cash holding of £66,457k (2020 - £62,411k), which includes ringfenced trust cash for customers that have already paid.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the abilities of the applicant concerned. In the event of members of staff becoming disabled every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Employee consultation

The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is achieved through regular internal communications which are made to all employees to ensure that they are kept well informed of the performance of the Company. The Company seeks to work with each individual employee, enabling them to reach and maximise their potential in the context of their own personal circumstances.

Directors' Report (continued) For the Year Ended 31 October 2021

Charitable donations

Charitable donations of £2,700 (2020 - £9,600) were made during the year.

Events after the reporting period

There have been no significant events affecting the Company since the year end. We continue to monitor the situation in Ukraine; at this stage there has been no significant impact on the Company's trading

Engagement with suppliers, customers and others

Please refer to the s.172 statement in the Strategic Report for details on how the Directors engage with suppliers, customers and other key stakeholders.

Greenhouse gas emissions, energy consumption and energy efficiency action

The Company has taken the exemption available to subsidiary companies not to disclose information in respect of greenhouse gas emissions, energy consumption and energy efficiency action given this is disclosed in the consolidated financial statements of the ultimate parent Company, Cannes Topco Limited.

Future developments

The Company's core strategic focus - attracting more Travel Counsellors to our platform, supporting them in growing their businesses and in delivering a superior personal service to customers - is proven to deliver revenue and profit growth, which remains unchanged. Notwithstanding the uncertain long-term impacts on travel behaviour as a result of COVID-19, the Company is well positioned strategically to address the underlying long-term trends in the leisure and business travel sector and the wider economy. The forward earnings visibility afforded by the lead time from booking to departure, strong potential for further growth in Travel Counsellor franchisee numbers, and the reliable track record of new Travel Counsellors developing their businesses provides a good degree of confidence in long-term growth prospects.

We strongly believe that our customers are eager to get back to travelling and enjoying holidaying again, which has led to a large pent-up demand for holidays again. The business and our Travel Counsellors have used this pandemic to strengthen their position within the industry and potential customers are now more than willing to depend on trusted travel advice during these uncertain times.

Core customers and clients are relatively premium, make complex trips and value convenience and travel outcomes above price. Travel Counsellor franchisees have the freedom to run their businesses in the way that best suits their own talents, aspirations and lifestyle. They build long-term relationships with customers, sourced from their own network or from referrals, and provide those customers with a high touch, personalised service that drives high repeat rates. The Company's asset, labour and marketing-light operating model is highly scalable, and the personal relationships franchisees create with their customers are increasingly enhanced through digital technologies. The business model, over time, will continue to strengthen with investment in the platform by the Company in digital technology and advanced analytics, enabling delivery of more effective tools and support to Travel Counsellor business owners, that enhances their productivity and augments the close relationships they foster with their customers and clients.

We strongly believe that our customers are eager to get back to travelling, catching up on lost time with family and friends, enjoying holidaying again and taking much valued business trips. All of which has led to a large pent-up demand for travel and trusted travel advice that travel counsellors are uniquely well placed to provide.

Directors' Report (continued) For the Year Ended 31 October 2021

Disclosure of information to auditor

Slew By

Each of the persons who are Directors at the time when this Directors' Report is approved has confirmed that:

- so far as that Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- The Director has taken all the steps that ought to have been taken as a Director in order to be aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Auditor

The auditor, Deloitte LLP, will be proposed for reappointment in accordance with section 485 of the Companies Act 2006, subject to board approval.

This report was approved by the board on 08/04/2022

and signed on its behalf.

S Byrne

Director

Directors' Responsibilities Statement For the Year Ended 31 October 2021

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including FRS 101 "Reduced Disclosure Framework". Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditor's Report to the Members of Travel Counsellors Limited

Report on the audited of the financial statements

Opinion

In our opinion the financial statements of Travel Counsellors Limited (the 'Company'):

- give a true and fair view of the state of the Company's affairs as at 31 October 2021 and of its loss for the year then ended;
- been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the Statement of Comprehensive Income;
- the Statement of Financial Position;
- the Statement of Changes in Equity; and
- the related notes 1 to 31.

The financial reporting framework that has been applied in the preparation of the financial statements is in accordance with applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty relating to going concern

We draw attention to note 2.4 to the financial statements, concerning the Company's ability to continue as a going concern which indicates that COVID-19 is continuing to create material uncertainty in terms of trading which may impact the Company's ability to generate sufficient cash, potentially requiring additional equity for working capital and/or to stay within the financial covenants in the Company's banking facility agreement and within the covenants set by the CAA. As stated in note 2.4, these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the Directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Our responsibilities and the responsibilities of the Directors with respect to going concern are described in the relevant sections of this report.

Independent Auditor's Report to the Members of Travel Counsellors Limited (continued)

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Directors

As explained more fully in the Directors' Responsibilities Statement, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.co.uk/auditorsresponsibilities.This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the Company's industry and its control environment, and reviewed the Company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management about their own identification and assessment of the risks of irregularities.

Independent Auditor's Report to the Members of Travel Counsellors Limited (continued)

Extent to which the audit was considered capable of detecting irregularities, including fraud (continued)

We obtained an understanding of the legal and regulatory framework that the Company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements.
 These included UK Companies Act, pensions legislation and tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the Company's ability to operate or to avoid a material penalty. These included GDPR, employment law, health and safety and building regulations.

We discussed among the audit engagement team including significant component audit teams and relevant internal specialists such as tax, IT, and industry specialists regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

As a result of performing the above, we identified the greatest potential for fraud in the following areas, and our specific procedures performed to address them are described below:

- Revenue recognition: We have identified a significant risk in relation to the manual journals posted to revenue: In addressing the risk we have updated our understanding of the nature of the revenue and the associated processes and key controls; and performed focused detailed testing on the revenue transactions.
- Valuation of internally developed intangible assets: We have challenged managements' judgement regarding the appropriateness of the carrying value by performing detailed testing of the historic intangible base and additions capitalised in the year.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance.

Independent Auditor's Report to the Members of Travel Counsellors Limited (continued)

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Strategic Report or the Directors' Report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or return adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of Directors' remuneration specified by law are not made; or
- We have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Notes to the Financial Statements For the Year Ended 31 October 2021

1. General information

Travel Counsellors Limited ("the Company") is a Company incorporated in the United Kingdom under the Companies Act 2006.

The Company is a private company limited by shares and is registered in England and Wales. The address of the Company's registered office is shown on the Company Information page. The principal activities of the Company and the nature of the Company's operations are set out in the Strategic Report.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared in accordance with FRS 101.

The financial statements have been prepared on the historical cost basis, except for the revaluation of financial instruments that are measured at revalued amounts or fair values at the end of each reporting year, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

The consolidated financial statements are presented in Sterling, which is also the Company's functional currency. All balances have been rounded to the nearest thousand pound.

The preparation of financial statements in compliance with adopted IFRS requires the use of certain critical accounting estimates. It also requires Company management to exercise judgement in applying the Company's accounting policies. The areas where significant judgements and estimates have been made in preparing the financial statements and their effect are disclosed in note 3.

The parent Company has taken the available exemption to not prepare a Statement of Cash Flows. The principal accounting policies adopted are set out below and have all been applied consistently throughout the year and previous period.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.2 Financial reporting standard 101 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions under FRS 101:

- the requirements of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 Revenue from Contracts with Customers;
- the requirements of paragraph 52, the second sentence of paragraph 89, and paragraphs 90, 91 and 93 of IFRS 16 Leases. The requirements of paragraph 58 of IFRS 16, provided that the disclosure of details in indebtedness relating to amounts payable after 5 years required by company law is presented separately for lease liabilities and other liabilities, and in total;
- the requirement in paragraph 38 of IAS 1 'Presentation of Financial Statements' to present comparative information in respect of:
 - paragraph 79(a)(iv) of IAS 1;
 - paragraph 73(e) of IAS 16 Property, Plant and Equipment; and
 - paragraph 118(e) of IAS 38 Intangible Assets;
- the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134-136 of IAS 1 Presentation of Financial Statements;
- the requirements of IAS 7 Statement of Cash Flows;
- the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
- the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures;
- the requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member; and
- the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d)-134(f) and 135(c)-135(e) of IAS 36 Impairment of Assets.

In addition, and in accordance with FRS 101, further disclosure exemptions have been applied on the basis that equivalent disclosures are included in the consolidated financial statements of Cannes Topco Limited. These financial statements do not include certain disclosures in respect of:

• Financial Instrument disclosures as required by IFRS 7 Financial Instruments: Disclosures.

The consolidated financial statements of Cannes Topco Limited are publicly available and may be obtained from its registered office at Venus No.1 Old Park Lane, Trafford City, Manchester, England, M41 7HA.

2.3 Exemption from preparing consolidated financial statements

The Company is a parent Company that is also a subsidiary included in the consolidated financial statements of its ultimate parent undertaking and is therefore exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.4 Going concern

The directors have prepared the financial statements on the going concern basis having concluded that the Company has access to adequate resources to continue in operational existence for the foreseeable future. The Company is part of the Cannes Topco Group (the 'Group') and in forming their conclusion on going concern, the directors have taken into account the Group's and Company's current levels of liquidity (including that provided by the Group's ring-fenced trust accounts for consumer funds), the flexible structure of the Group's banking facilities (particularly with regards to potential relief in respect of covenant tests), support of the principal shareholders, and financial modelling based on several factors, assumptions and estimates reflecting the information currently available to the directors. In particular, the Group has a long-standing history of protecting customer and supplier monies via its ring-fenced trust accounts and is not reliant on customer money to fund its working capital.

The COVID-19 crisis continues to disrupt the global travel industry, with no historic data to support a recovery timeline. At its most severe and long-term, the inability for customers to complete their travel plans could hinder the Group and in turn the Company's ability to generate cash. Given the current financial position of the Group and Company, this could result in a material uncertainty to remain within the financial covenants within the banking facility agreement and within the covenants set by the CAA. Therefore as a result of the material uncertainty at the Group, this in turn creates a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern, such that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. **Accounting policies (continued)**

2.5 Impact of new reporting standards, amendments and interpretations

In the current financial year, the Company has applied amendments to IFRSs issued by the International Accounting Standards Board (IASB) that are mandatorily effective for an accounting period that begins on or after 1 January 2020

Standard

Amendment

Impact on the financial statements

8: Definition of Materiality

Amendments to IAS 1 & IAS Materiality is a key concept in preparing financial No impact statements according to IFRS. The amendments refine the definition of 'material' and clarify how to apply materiality. The amendments also align the definition of 'material' and ensure consistency in the application of that concept across all IFRS Standards.

Framework: References to **IFRS Standards**

Amendments The revised Conceptual Framework includes revised No impact the definitions of an asset and a liability, and new guidance Conceptual Framework in on measurement and derecognition, presentation and disclosure. References to the Conceptual Framework in existing Standards are updated. The revised Conceptual Framework is not subject to the Endorsement Process.

Amendments to IFRS 9, IAS The amendments relate to the provision of relief from Not material (Phase 1)

39 and IFRS 7: Interest potential consequences arising from the reform of Rate Benchmark Reform interbank offered rates (IBORs) such as LIBOR on companies' financial reporting. They are intended to secure the continuation of hedging relationships despite the replacement of current interest rates with alternative rates. Entities also must disclose the extent to which their hedges are affected by the interest rate benchmark reform.

Concessions

Amendments to IFRS 16: The amendments published by the IASB on 28 May No impact COVID-19 Related Rent 2020 provide lessees with an exemption from assessing whether a COVID-19-related rent concession is a lease modification. Lessees applying the exemption must account for the rent concessions as if they were not lease modifications. The amendments are available for rent concessions reducing lease payments due on or before 30 June 2021.

Amendments to IFRS 16: The amendments published by the IASB on 31 March No impact Rent 2020 extend the period of application of the COVID-19-Related 30 aforementioned amendments to IFRS 16 issued on 28 Concessions beyond June 2021 May 2020 for another year.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.5 Impact of new reporting standards, amendments and interpretations (continued)

New and revised IFRS Standards in issue but not yet effective

At the date of authorisation of these financial statements, the Company has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

- IFRS 17: Insurance Contracts;
- IFRS 10 and IAS 28 (amendments): Sale or Contribution of Assets between an Investor and its Associate or Joint Venture;
- Amendments to IAS 1: Classification of Liabilities as Current or Non-current;
- Amendments to IFRS 3: Reference to the Conceptual Framework;
- Amendments to IAS 16: Property, Plant and Equipment—Proceeds before Intended Use;
- Amendments to IAS 37: Onerous Contracts Cost of Fulfilling a Contract;
- Annual Improvements to IFRS Standards 2018-2020 Cycle: Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards, IFRS 9 Financial Instruments, IFRS 16 Leases, and IAS 41 Agriculture;
- Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure of Accounting Policies;
- Amendments to IAS 8: Definition of Accounting Estimates; and
- Amendments to IAS 12: Deferred Tax related to Assets and Liabilities arising from a Single Transaction.

The directors do not expect that the adoption of the Standards listed above will have a material impact on the financial statements of the Company in future periods.

2.6 Total transaction value (TTV)

TTV, which is stated net of VAT, does not represent the Company's statutory turnover. TTV represents the gross price at which holidays have been sold by the Company, plus other associated revenues.

2.7 Foreign currency translation

The financial statements are presented in pounds sterling, which is the currency of the primary economic environment in which the Company operates (its functional currency).

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At each year end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing at that date.

Exchange differences are recognised in profit or loss in the period in which they arise.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.8 Turnover

Turnover represents income earned as follows:

- Commission earned by the Company in the ordinary course of business whilst acting as agent.
 All commissions are shown net of VAT. Income is recognised at the date at which commission falls due; and
- Gross invoice value in the ordinary course of business whilst acting as principal. Income is deferred and recognised at the date of departure.

The key judgements in relation to revenue recognition are included within note 3.

2.9 Pension costs

Payments to defined contribution retirement pension scheme are recognised as an expense when employees have rendered service entitling them to the contributions. Payments made to state-managed retirement benefit schemes are dealt with as payments to defined contribution schemes where the Company's obligations under the schemes are equivalent to those arising in a defined contribution retirement benefit scheme.

2.10 Leases

The Company as a lessee

The Company assesses whether a contract is or contains a lease, at inception of a contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is included in 'Creditors' on the Statement of Financial Position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.10 Leases (continued)

The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised discount rate;
- the lease payments change due to changes in an index or rate or a change in expected
 payment under a guaranteed residual value, in which cases the lease liability is remeasured by
 discounting the revised lease payments using the initial discount rate (unless the lease
 payments change is due to a change in a floating interest rate, in which case a revised
 discount rate is used); and
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

The Company did not make any such adjustments during the periods presented.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Whenever the Company incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37. The costs are included in the related right-of-use asset, unless those costs are incurred to produce inventories.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are included in a separate line in the Statement of Financial Position.

The Company applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in note 2.20.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in 'Other expenses' in profit or loss.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Company has not used this practical expedient. For a contracts that contain a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.11 Exceptional items

Exceptional items are not defined by IFRS, but IAS 1 notes that individually material, standalone balances should be presented separately on the face of the statement of comprehensive income.

2.12 Operating profit

Operating profit is stated before investment income and finance costs.

2.13 Government grants

Government support income is booked against administrative expenses on the face of the statement of comprehensive income. There are no unfulfilled conditions or other contingencies attaching to these grants. The Company did not benefit directly from any other forms of government assistance.

2.14 Dividend income

Dividend income from investments is recognised when the shareholders' rights to receive payment have been established (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably).

2.15 Interest income

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.16 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.17 Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they relate.

2.18 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from net profit as reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the period end date.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.14 Taxation (continued)

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each period end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the period end date. Deferred tax is charged or credited in the statement of comprehensive income, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting year, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax for the period

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Notes to the Financial Statements For the Year Ended 31 October 2021

(beuniting) seicilog gnitinued)

stasse aldignatril et.S

2.

Computer software

Computer software is carried at cost less accumulated amortisation. Externally acquired computer software is capitalised and amortisation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method, at 20% per annum (5 years). Amortisation is included within administrative expenses.

Trademarks

Trademarks are measured initially at purchase cost and are amortised on a straight-line basis over their estimated useful lives, which is 25% per annum. Amortisation is included within administrative expenses.

Development expenditure

This relates to the cost of the development of the Company's innovative in-house booking system called Phenix.

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally generated intangible asset arising from the Company's development of their in-house booking system ('Phenix') and other IT systems is recognised if, and only if, all of the following conditions have been demonstrated:

- the development is technically feasible;
- the Company is able to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- the intangible asset will generate probable future economic benefits;
- adequate technical, financial and other resources are available to complete the development and
 to use or sell the intangible assets; and
- the expenditure attributable to the intangible asset during its development can be reliably measured.

The amount initially recognised for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally generated intangible asset can be recognised, development expenditure is recognised in the profit and loss in the period in which it is incurred. Subsequent to initial recognition, internally generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired and accumulated impairment losses, on the same basis as intangible assets that are acquired

The estimated useful life of this intangible asset has been assessed to be ten years. Amortisation is included within administrative expenses.

Patents

separately.

These relate to the costs incurred developing websites which are capitalised at historical cost and amortised on a straight-line basis (within administrative expenses) at 33% per annum.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.19 Intangible assets (continued)

Derecognition of intangibles assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

2.20 Tangible fixed assets

Tangible fixed assets under the cost model, other than investment properties, are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Leasehold property improvements

- 10% per annum

Fixtures and fittings

- 10% per annum

Computer hardware

- 20% per annum

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

Right of use assets are depreciated over the life of the lease.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.21 Impairment of tangible and intangible assets excluding goodwill

At each year end date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

An intangible asset with an indefinite useful life is tested for impairment at least annually and whenever there is an indication that the asset may be impaired

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

2.22 Investments

In the statement of financial position, investments in subsidiaries and associates are measured at cost less impairment.

2.23 Stocks

Stock is stated at the lower of cost and net realisable value. Stock is held under the first in first out ("FIFO") method.

2.24 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.25 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.26 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.27 Financial instruments

Financial assets and financial liabilities are recognised in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

After initial recognition, the deferred gain or loss will be released to profit or loss such that it reaches a value of zero at the time when the entire contract can be valued using active market quotes or verifiable objective market information.

Financial assets

All financial assets are recognised and derecognised on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the timeframe established by the market concerned, and are initially measured at fair value, plus transaction costs, except for those financial assets classified as at fair value through profit or loss. Transaction costs directly attributable to the acquisition of financial assets classified as at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets at FVTPL

Financial assets are classified as at FVTPL when the financial asset is (i) contingent consideration that may be paid by an acquirer as part of a business combination to which IFRS 3 applies, (ii) held for trading, or (iii) it is designated as at FVTPL.

Financial assets at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'other gains and losses' line item in the statement of comprehensive income. Fair value is determined in the manner described in note 24.

Loans and receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.27 Financial instruments (continued)

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at each period end date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit year of 60 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment is the differences between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities

Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is (i) contingent consideration that may be paid by an acquirer as part of a business combination to which IFRS 3 applies, (ii) held for trading, or (iii) it is designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item in the statement of comprehensive income. Fair value is determined in the manner described in note 24.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

Notes to the Financial Statements For the Year Ended 31 October 2021

2. Accounting policies (continued)

2.27 Financial instruments (continued)

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant year. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Cash and liquid resources

Liquid resources comprise money held by the Company's bankers on short-term deposit and amounts held in trust. These amounts are included within cash at bank and in hand in the statement of financial position. These liquid resources are held as a financial guarantee for the Company's travel licences and for the protection of monies collected from passengers and due to Tour Organisers. Amounts held in trust are included within liquid resources and a corresponding liability, representing amounts payable to tour operators and collected from passengers, is included within trade creditors and deferred income. Transfers are made between the Company's bank accounts and the trust account on a daily basis.

Deferred revenue

Until the date of holiday departure, inclusive holiday tours revenue receivable in advance is included in deferred revenue on the statement of financial position.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

The following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the Directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in financial statements.

Going concern

For the assumptions made in the Going Concern assessment see the detail contained within note 2.

Capitalisation of IT development costs

Determining the amounts to be capitalised involves judgement and is dependent upon the nature of the related development; namely whether it is capital (i.e. relating to the enhancement of the Phenix system or another internally generated IT system) or expenditure (as relating to the ongoing maintenance of the IT systems) in nature. Development costs that are directly attributable to the design and testing of identifiable and unique software products, websites and IT systems controlled by the Company are recognised as intangible assets if the recognition criteria set out in the accounting policies in note 2 are met.

Notes to the Financial Statements For the Year Ended 31 October 2021

3. Judgements in applying accounting policies and key sources of estimation uncertainty (continued)

Revenue recognition

A key judgement in recognising revenue is to distinguish where the Company's businesses act in the capacity of principal or agent so to determine the accounting as either gross or net respectively. In line with IAS 18 Revenue Recognition, the Company exercises judgement to assess principal or agency by considering if it is the prime obligor in all revenue arrangements, has pricing discretion and is exposed to inventory and credit risk in which case the Company will be principal to the arrangement.

Key sources of estimation uncertainty

Impairment of investments, intangible and tangible fixed assets

Determining whether assets are impaired requires an estimation of the value in use of the cash generating units to which the assets have been allocated. The value in use calculation requires the entity to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. The carrying amount of investments at the year end date was £Nil (2020 - £Nil), intangibles was £7.7m (2020 - £7.6m) and tangible fixed assets was £2.0m (2020 - £2.6m). The recoverable amounts of the CGUs are determined from value in use calculations. The key assumptions for the value in use calculations are those regarding the discount rates, growth rates, expected changes to selling prices and direct costs and expected level of capital expenditure in the year. Management estimates discount rates using pre-tax rates that reflect current market assessments of the time value of money and the risks specific to the CGU.

The Company has conducted a sensitivity analysis on the impairment test of the CGU's carrying value. An increase in the discount rate of 531 percentage points to the discount rate would cause the carrying value of non-current assets to equal their recoverable amount. The Company prepares cash flow forecasts derived from the most recent financial budgets approved by management for the next four years and extrapolates cash flows using a terminal growth value based on an estimated growth rate of 2 per cent. This is applied to the Company's forecasted EBITDA. This rate does not exceed the average long-term growth rate for the relevant markets.

The rate used to discount the forecast cash flows is 14.0 per cent (2020 - 13.3 per cent). No impairment (2020 - No impairment) has been identified following the value in use calculation.

4. Turnover

An analysis of the Company's turnover is as follows:

	2021 £000	2020 £000
Sale of services	53,557	103,450

Turnover is entirely attributable to the UK. The Directors are of the opinion that there is only one class of business, being the provision of travel arrangements, either as principal or agent. All revenue is derived from the principal activity of the Company, that of a travel management company.

Notes to the Financial Statements For the Year Ended 31 October 2021

5.	Other operating income		
		2021 £000	2020 £000
	Government grants receivable	-	1,505
6.	Loss before taxation		
	The loss before taxation is stated after charging/(crediting):		
		2021 £000	2020 £000
	Depreciation of tangible fixed assets	764	838
	Depreciation of right of use assets	643	438
	Foreign exchange gain	-	(90)
	Amortisation of intangible assets, including goodwill	1,172	1,498
	Fair value gain on derivatives	-	(844)
	Loss on disposal of PPE and intangible	-	4
	Cost of stock recognised as expense	-	54
	Staff costs	10,982	13,966
7.	Exceptional items		
		2021 £000	2020 £000
	Legal and restructuring costs	-	4,788

During the current and prior year, the Company incurred one off legal and restructuring costs of £Nil (2020 - £4,788k).

8. Auditor's remuneration

Fees payable to Deloitte LLP and their associates for the audit of the Company's annual financial statements were £79,000 (2020 - £50,000).

Fees payable to Deloitte LLP and their associates for non-audit services, in respect of regulatory returns and covenant compliance to the Company totalled £8,750 (2020 - £8,200).

Notes to the Financial Statements For the Year Ended 31 October 2021

9. Employees

Staff costs, including Directors' remuneration, were as follows:

	2021 £000	2020 £000
Wages and salaries	9,885	12,687
Social security costs	809	926
Cost of defined contribution scheme	288	353
	10,982	13,966

The average monthly number of employees, including the Directors, during the year was as follows:

	2021 Number	2020 Number
Accounts and administration	98	67
Sales	93	237
	191	304

10. Directors' remuneration

The Directors' remuneration analysed under the headings required by Company Law, is set out below. There were 4 (2020 - 4) statutory Directors in the year. During the prior year, management changed their policy such that remuneration of key management personnel would no longer be presented. The disclosure below includes costs associated with statutory Directors only.

	2021 £000	2020 £000
Directors' emoluments	902	644
Company contributions to defined contribution pension schemes	39	23
	941	667

The highest paid Director received remuneration of £287,000 (2020 - £272,000).

The value of the Company's contributions paid to defined contribution pension schemes in respect of the highest paid Director amounted to £Nil (2020 - £1,000).

Directors' emoluments include £Nil (2020 - £699,000) recharged to the Company by way of a management fee from the parent Company, Cannes Bidco Limited.

Notes to the Financial Statements For the Year Ended 31 October 2021

Notes to the Financial Statements For the Year Ended 31 October 2021

13. Taxation (continued)

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2020 - higher than) the standard rate of corporation tax in the UK of 19% (2020 - 19%). The differences are explained below:

	2021 £000	2020 £000
Loss before tax	(10,713)	(9,648)
Loss multiplied by standard rate of corporation tax in the UK of 19% (2020 - 19%) Effects of:	(2,035)	(1,833)
Expenses not deductible for tax purposes	622	26
Income not taxable in determining taxable profit	(3)	(27)
Adjustments to tax charge in respect of prior periods	(206)	41
Group relief	143	-
Tax rate changes	6	159
Total tax credit for the year	(1,473)	(1,634)

Factors that may affect future tax charges

Increase in the UK Corporation tax rate from 19% to 25% (19% effective from 1 April 2017, and 25% effective from 1 April 2023) have been substantively enacted. This will impact the Company's future tax charge accordingly. The value of the deferred tax liability at the Statement of Financial Position date has been calculated using the applicable rate when the liability is expected to be realised.

Notes to the Financial Statements For the Year Ended 31 October 2021

14. Intangible assets

	Patents £000	Development expenditure £000	Trademarks £000	Computer software £000	Total £000
Cost					
At 1 November 2020	697	10,122	65	822	11,706

At 31 October 2020	176	7,332	3	57	7,568

The amortisation period for development costs incurred on the Company's Phenix system is 10 years.

Trademarks are amortised over their estimated useful lives, which is on average 4 years.

Computer software is amortised over its estimated useful life, which is on average 5 years.

Patents are amortised over their estimated useful lives, which is on average 3 years.

The amortisation charge is presented within administrative expenses caption in the Statement of Comprehensive Income.

17. Investments in subsidiaries (continued)

The following were subsidiary undertakings of the Company:

Name	Registered office	Country of incorporation	Holding	Principal activity
Travel Counsellors (Ireland) Limited	NSC Campus, Mahon, Cork	Ireland	100%	Travel Agent
Travel Counsellors Nederland BV	Emmapark 8, 2595 ET The Hague	Netherlands	100%	Travel Agent
Travel Counsellors Proprietary	4/34 Queen Street, Melbourne, Victoria, 3000	Australia	100%	Travel Agent
TC Africa 1 Proprietary Limited	Floor 11, Norton Rose Fulbright House, 8 Riebeek Street, Cape Town 8001	South Africa	100%	Holding company for South African Group
Travel Counsellors Spain S.L.	Venus No 1 Old Park Lane, Trafford City, Manchester, England, M41 7HA	Spain	100%	Travel Consultants
Bob Sopel Travel Limited	Venus No 1 Old Park Lane, Trafford City, Manchester, England, M41 7HA	England & Wales	100%	Travel Consultants
Altius Trading 397 Pty Ltd	Floor 11, Norton Rose Fulbright House, 8 Riebeek Street, Cape Town 8001	South Africa	100%	Travel Consultants

All shares held in subsidiary undertakings are Ordinary shares.

All of the above are direct subsidiaries. With the exception of Travel Counsellors (Ireland) Limited, Travel Counsellors Nederlands BV, Travel Counsellors Proprietary and TC Africa 1 Proprietary, all other companies are now dormant.

Bob Sopel Travel Limited is entitled to, and has opted to take, exemption from the requirement for their individual financial statements to be audited under s480 of the Companies Act 2006 relating to dormant companies.

18. Stocks

	2021 £000	2020 £000
Stocks	-	122
		

There is no material difference between the replacement cost of stock and the amounts presented above.

An expense of £122k (2020 - £98k) was recognised in the year in respect of slow-moving or obsolete stock.

Notes to the Financial Statements For the Year Ended 31 October 2021

Debtors		
	2021	As restated 2020
	£000	£000
Non-current		
Amounts owed by subsidiary companies	5,313	5,651
Amounts owed by parent companies	33,942	29,931
	39,255	35,582
		As restated
	2021 £000	2020 £000
Current		
Trade debtors	12,849	2,281
Amounts owed by parent companies	2,155	-
Other debtors	-	112
Refunds from suppliers	-	7,501
Prepayments and accrued income	13,995	16,265
Tax recoverable	903	627
Deferred taxation	90	-
Derivative financial asset (see note 24)	68	68

All intercompany balances are unsecured and repayable on demand and do not attract any interest.

An expense of £103k (2020 - £9k) has been charged in the year in respect of bad or doubtful debts.

Amounts owed by group undertakings of £35.6m were previously presented within current receivables within 2020. Given that the items were not expected to be settled within the company's normal operating cycle, these should have been presented in non-current receivables in the prior period. Accordingly amounts presented in current receivables in 2020 have been reclassified to non-current receivables.

Notes to the Financial Statements For the Year Ended 31 October 2021

20.	Cash and cash equivalents		
		2021 £000	2020 £000
	Bank current accounts	7,979	21,771
	Amounts held in trust	58,298	40,640

Cash and cash equivalents comprise amounts held in trust totalling £58.3m (2020 - £40.6m). Amounts held in trust are restricted cash held separately. These amounts are held as a financial guarantee for the Group's travel licences and for the protection of monies collected from passengers and due to Tour Organisers.

The redeemable cumulative preference shares are entitled to a cumulative dividend of 15% per annum and are redeemable at par at the Company's option, whole or in part. There are no time restrictions on the redeemable cumulative preference shares, redemption is at the option of the shareholder and there is no premium payable on redemption.

The dividends are unpaid at the year-end date.

There are no creditors due after more than five years.

# Valuation techniques and assumptions applied for the purposes of measuring fair value

The Company uses the following hierarchy for determining the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly; and

Level 3: techniques which use inputs which have significant effect on the recorded fair value that are not based on observable market data.

All derivative financial instruments are shown at fair value in the Statement of Financial Position. The fair values have been determined by reference to Level 2 techniques in the hierarchy described above. The fair value of derivative financial instruments represents the maximum credit exposure.

### Significant assumptions used in determining fair value of financial assets and liabilities

### **Derivatives**

The Company enters into derivative financial instruments contracts to manage its exposure to foreign exchange rate risk.

It is the policy of the Company to enter into forward foreign exchange contracts to cover specific foreign currency payments up to 12 months out.

# Notes to the Financial Statements For the Year Ended 31 October 2021

# 24. Financial instruments (continued)

### Forward foreign currency contracts

The following table details the forward foreign currency contracts outstanding as at the year-end. All of the forward contracts have maturities of less than one year after the year end date.

|                        | Notional<br>value<br>2021<br>£000 | Notional<br>value<br>2020<br>£000 | Fair value<br>2021<br>£000 | Fair value<br>2020<br>£000 |
|------------------------|-----------------------------------|-----------------------------------|----------------------------|----------------------------|
| Outstanding contracts  |                                   |                                   |                            |                            |
| Less than 3 months     | 3,220                             | 4,414                             | 68                         | 52                         |
| Between 3 and 6 months | 2,790                             | 784                               | -                          | 8                          |
| Greater than 6 months  | 5,527                             | 1,107                             | -                          | 8                          |
|                        | 11,537                            | 6,305                             | 68                         | 68                         |

The Company takes on transactional currency exposures relating to the cost of foreign currency denominated product.

The Company has entered into forward foreign currency contracts to hedge against adverse movements in the foreign exchange market. Rates are not disclosed in the above table as the Company deems this information to be commercially sensitive.

The instruments are designated as fair value through the profit and loss. Gains of £Nil (2020 - gains of £844,000) were recognised in interest receivable/payable.

# 25. Deferred taxation

|                            | 2021<br>£000 |

|     |                                                      | Restructuring<br>provision<br>£000 | Legal<br>provision<br>£000 | Total<br>£000 |
|     | At 1 November 2020                                   | 1,015                              | 1,595                      | 2,610         |
|     | Utilised in the year                                 | (1,015)                            | (1,595)                    | (2,610)       |
|     | At 31 October 2021                                   | -                                  | <u> </u>                   | -             |

**Restructuring provision:** Due to the impact of COVID-19, the business had to commence a restructuring programme, which looked to permanently reduce the cost base of the business. Costs provided for materially covered the agreed redundancy payment for all affected staff. These costs were settled in full in the year.

Legal provision: Provision for the settlement of a legal dispute, which was settled in full in the year.

The Ordinary Class A shares and Ordinary Class B shares rank pari passu in respect of a winding up of the Company. The holders of Class B shares are not entitled to attend or vote at any general meeting of the Company.

Every general meeting of which a dividend is declared shall, by ordinary resolution, direct that such dividend be paid either in respect of one class of shares to the exclusion of the other class, or in respect of both classes of shares.

### 28. Reserves

The Company's capital and reserves are as follows:

### Called up share capital

Called up share capital represents the nominal value of the shares issued.

### Merger Reserve

The merger reserve was created on restructure of the South African companies, in which the Company acquired TC Africa 1 Proprietary Limited as a direct subsidiary holding.

# Profit and loss account

The profit and loss account represents cumulative profits or losses, net of dividends paid and other adjustments.

# Notes to the Financial Statements For the Year Ended 31 October 2021

### 29. Contingent liabilities

The Company acts as a guarantor in respect of borrowings between Cannes Bidco Limited, the intermediate parent of the Company, Pemberton EMMDF II Holdings S.A.R.L, Pemberton Debt Holdings UK S.A.R.L and Lloyds Bank Plc. At the year end the total amount owed totalled £119.8m (2020 - £114.5m).

# 30. Related party transactions

The Company has taken advantage of the exemption allowed by FRS 101:8k, not to disclose any transactions with wholly owned subsidiaries that are included in the consolidated financial statements of Cannes Topco Ltd. Related party balances are disclosed in the debtors and creditors within notes 19 and 21 respectively.

# 31. Controlling party

The immediate parent Company is Travel Counsellors Group Limited and the ultimate parent Company is Cannes Topco Limited.

The smallest and largest group in which the results of the Company are consolidated is that headed by Cannes Topco Limited, which is incorporated in the UK. The consolidated financial statements are publicly available and may be obtained from its registered office: Venus No. 1 Old Park Lane, Trafford City, Manchester, England, M41 7HA.

Vitruvian Partners LLP holds 82.8% of the issued equity capital of Cannes Topco Limited and is therefore considered the ultimate controlling party.
