**AVBOB MUTUAL ASSURANCE SOCIETY  
AND ITS SUBSIDIARIES**

**STATEMENT OF RESPONSIBILITY BY THE BOARD OF DIRECTORS  
FOR THE YEAR ENDED 30 JUNE 2022**

The directors of the AVBOB Mutual Assurance Society (the Society) are responsible for the preparation, integrity and fair presentation of the annual financial statements of the Society and its subsidiaries (the Group). The summarised financial statements as presented on pages 101 to 128 have been prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS), IAS 34 Interim financial statements and the requirements of the Companies Act 71 of 2008 of South Africa as applicable to summary financial statements.

The directors are responsible for and the Group Audit Committee has confirmed that effective systems of internal control and risk management are being maintained. There were no material breakdowns in the functioning of the internal financial control systems during the year. The Board is satisfied that the financial statements fairly present the financial position, the results of operations and cash flows in accordance with the framework concepts and the measurement and recognition requirements of IFRS, IAS 34 Interim financial statements and the requirements of the Companies Act 71 of 2008 of South Africa as applicable to summarised financial statements and that they are supported by reasonable and prudent judgements that are consistently applied.

The directors are also responsible to prepare all other information included in the annual report including its accuracy and consistency with the financial statements. The maintenance of proper accounting records, written or electronic and the reliability of financial information used within the business, or for the publication thereof is the responsibility of the Directors.

The going concern basis has been adopted in preparing the financial statements. Based on forecasts and available cash resources the directors have no reason to believe that the Society or any company within the Group will not comply with the going concern principle in the foreseeable future. These financial statements support the viability of the Society and the Group.

The summarised financial statements have been audited by the independent auditor, PricewaterhouseCoopers Incorporated, who were given unrestricted access to all financial records and related data, including minutes of all meetings of members, the Board of Directors and Committees of the Board. The directors believe that all representations made to the independent auditors during their audit are valid and appropriate.

The responsibility of the external auditor, PricewaterhouseCoopers Incorporated, is to express an independent opinion on the fair presentation of the summarised financial statements based on their audit of AVBOB Mutual Assurance Society and its subsidiaries.

The audit report of PricewaterhouseCoopers Incorporated is presented on pages 99 to 100.

The summarised financial statements were approved by the Board of Directors on 28 September 2022 and are signed on its behalf by:

## AVBOB MUTUAL ASSURANCE SOCIETY AND ITS SUBSIDIARIES

### REPORT OF THE GROUP SOCIAL AND ETHICS COMMITTEE FOR THE YEAR ENDED 30 JUNE 2022

The Group Social and Ethics Committee is constituted as a sub-committee of the Group Board of Directors in accordance with applicable legislation and regulations. The Committee is chaired by an independent non-executive director. The Committee comprised of three non-executive directors and three executive directors who have the necessary skill, knowledge and expertise required to perform the statutory duties and responsibilities of the Committee in terms of section 72(4) and (5) of the Companies Act 71 of 2008.

The Committee met three times during the financial year under review, and executed its statutory duties and responsibilities in accordance with the Committee Charter, in terms of which the following areas were monitored:

- Social and economic development, including the Group's standing in terms of the goals and purposes of:
  - the ten principles set out in the United Nations Global Compact Principles;
  - the Organisation for Economic Co-operation and Development (OECD) recommendations regarding corruption;
  - the Employment Equity Act 55 of 1998; and
  - the Broad-based Black Economic Empowerment Act 53 of 2003.
- Good corporate citizenship.
- The environment, health and public safety, including the impact of the Group's activities and its products or services.
- Labour and employment.
- Consumer relationships, including the Group's policies and records relating to advertising, public relations and compliance with consumer protection laws.

Detailed information on the activities of the Committee is contained in the corporate governance section of the integrated annual report of the Group.

The Committee is satisfied with the Group's compliance with its social and ethical responsibilities, which further emphasises the Group's sense of responsibility as a fair, honest and transparent Group. In addition, the Committee is satisfied that it complied with its social and ethical responsibilities in terms of the Companies Act 71 of 2008 in respect of the subsidiary companies.

**AVBOB MUTUAL ASSURANCE SOCIETY  
AND ITS SUBSIDIARIES**

**REPORT OF THE GROUP AUDIT COMMITTEE  
FOR THE YEAR ENDED 30 JUNE 2022**

The Group Audit Committee has been constituted in accordance with applicable legislation and regulations. The Committee comprised of four independent non-executive directors for the first seven months of the year, thereafter it comprised of three independent non-executive directors. Three meetings were held during the financial year during which the members fulfilled their functions as prescribed by the Companies Act 71 of 2008 and the Insurance Act 18 of 2017. The Committee also executed its duties and responsibilities in accordance with the terms of reference of its mandate.

Detailed information on the activities of the Committee is contained in the leadership and corporate governance section of the integrated annual report.

The Committee members were formally appointed by the Board of Directors. The composition of the Committee and details of their attendance of Committee meetings is set out in the Directors' report in the annual financial statements.

Based on the information and explanations given by management and the internal and external assurance providers, the Committee is of the opinion that effective systems of internal control, including financial controls and risk management, are being maintained. Nothing has come to the attention of the Committee to indicate that any breakdown in the functioning of these controls, resulting in material loss to the Group, has occurred during the year and up to the date of this report.

The Committee has satisfied itself that the external auditors are independent of the Group and are thereby able to conduct their audit functions without any influence from the Group. The Committee has also satisfied itself that the Financial Director, Ms TA Cooper, has the appropriate expertise and experience to fulfil her role. The Committee has further satisfied itself of the expertise, resources and experience of the Group's financial function.

The Committee has reviewed the financial statements and recommended these to the Board of Directors for approval.

# FINANCIAL STATEMENTS Continued

## **Independent auditor's report on the summary consolidated financial statements**

To the members of AVBOB Mutual Assurance Society

### **Opinion**

The summary consolidated and separate financial statements of AVBOB Mutual Assurance Society (the "Society") and its subsidiaries (together the Group), set out on page 101 to 128, which comprise the summarised statements of financial position as at 30 June 2022, the summarised statements of comprehensive income, changes in reserves and cash flows for the year then ended, and related notes, are derived from the audited consolidated and separate financial statements of the Society for the year ended 30 June 2022.

In our opinion, the accompanying summary consolidated and separate financial statements are consistent, in all material respects, with the audited consolidated and separate financial statements, in accordance with the requirements of the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards, IAS 34 Interim financial statements and the requirements of the Companies Act of South Africa as applicable to summary financial statements.

### **Summary consolidated and separate financial statements**

The summary consolidated and separate financial statements do not contain all the disclosures required by International Financial Reporting Standards and the requirements of the Companies Act of South Africa as applicable to annual financial statements. Reading the summary consolidated and separate financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited consolidated and separate financial statements and the auditor's report thereon.

### **The audited consolidated and separate financial statements and our report thereon**

We expressed an unmodified audit opinion on the audited consolidated and separate financial statements in our report dated 12 October 2022.

### **Director's responsibility for the summary consolidated and separate financial statements**

The directors are responsible for the preparation of the summary consolidated and separate financial statements in accordance with the requirements of the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards, IAS 34 Interim financial statements and the requirements of the Companies Act of South Africa as applicable to summary financial statements.

**Auditor's responsibility**

Our responsibility is to express an opinion on whether the summary consolidated and separate financial statements are consistent, in all material respects, with the audited consolidated financial statements based on our procedures, which were conducted in accordance with International Standard on Auditing (ISA) 810 (Revised), *Engagements to Report on Summary Financial Statements*. ### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022

#### 1. General information

The Society is a funeral assurance provider and the subsidiaries manufacture, distribute and sell funeralware and conduct funerals. The Group has a manufacturing plant in Bloemfontein and conducts business in South Africa.

These summarised financial statements have been audited.

#### 2. Basis of preparation

The Group has applied the provisions of the Companies Act, no 71 of 2008, which allows for summarised financial results as disclosed in this report.

The summarised financial statements should be read in conjunction with the annual financial statements for the year ended 30 June 2022, which have been prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS), IAS 34 Interim financial statements and the requirements of the Companies Act of South Africa as applicable to summarised financial statements.

#### 3. Accounting policies

The summarised financial statements do not include the complete accounting policies required in the annual financial statements and should be read in conjunction with the annual financial statements for the year ended 30 June 2022.

The accounting policies adopted are consistent with those of the previous financial year.

There are a number of amendments, interpretations and improvements to standards that are not yet effective in 2022.

The Group has not early adopted any of these standards or interpretations. Except for the impact of IFRS 17, which has not as yet been fully determined, the application of the standards and interpretations are not expected to have a significant impact on the Group's reported results, financial position and cash flows.

The assessment of the expected impact of the implementation of IFRS 17 included the following:

IFRS 17 establishes the principles for the recognition, measurement, presentation and disclosure of insurance contracts within the scope of the standard. It will replace the current standard, IFRS 4 that allows insurers to use their local GAAP. IFRS 17 defines clear and consistent rules that are intended to increase the comparability of Financial Statements.

The standard combines current measurements for the future cash flows with the recognition of profit over the service period under the contract. The standard mandates the presentation of insurance revenue separately from insurance finance income or expenses, and requires an entity to make various accounting policy choices, including whether to recognise all insurance finance income or expenses in profit or loss or to recognise some of that income or expenses in other comprehensive income.

Under IFRS 17, the General Measurement Model (GMM) requires entities to measure an insurance contract at initial recognition at the total of the fulfilment cash flows (comprising the estimated future cash flows, an adjustment to reflect the time value of money and an explicit risk adjustment for non-financial risk) and the contractual service margin. The fulfilment cash flows are remeasured on a current basis at each reporting period. The unearned profit (contractual service margin) is recognised over the coverage period.

Aside from this GMM, the standard allows, as a simplification, the Premium Allocation Approach (PAA). This simplified approach is applicable for certain types of contracts, including those with a coverage period of one year or less.

For insurance contracts with GMM direct participation features, the variable fee approach applies. The variable fee approach is a variation on the GMM. When applying the variable fee approach, the entity's share of the fair value changes of the underlying items is included in the contractual service margin. As a consequence, the fair value changes are not recognised in profit or loss, but rather in the statement of comprehensive income.

### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022 (continued)

#### 3. Accounting policies (continued)

A defining feature of an insurer that is a mutual entity is that the residual interest of the entity is due to a policyholder and not a shareholder. When applying IFRS 17, payments to policyholders form part of the fulfilment cash flows regardless of whether those payments are expected to be made to current or future policyholders. Thus, the fulfilment cash flows of an insurer that is a mutual entity generally include the rights of policyholders to the whole of any surplus of assets over liabilities. This means that, for an insurer that is a mutual entity, there should, in principle, normally be no equity remaining and no net comprehensive income reported in any accounting period.

The potential impact to the Group is that the majority of the contracts issued by the Group have a coverage period of more than one year and will be measured under the GMM. Other contracts that are short term in nature with a coverage period of less than a year will be accounted for under the PAA.

An IFRS 17 Working Committee has been established to identify and implement systems and process changes in anticipation of the implementation of the standard. The Committee provides monthly updates regarding the progress of implementation of IFRS 17. Furthermore, the Group's IFRS 17 implementation team which consists of the core finance, actuarial and information technology team as well as internal and external specialists provide daily updates regarding the progress of the project. The Groups IFRS 17 implementation team is currently testing data to identify gaps in order to incorporate refinements to comply with the requirements of both measurement models. The next steps for the Group is to finalise the accounting policies and methodologies for the opening balance transition approach that will be applied, and to integrate software to execute the implementation of IFRS 17 in phases.

The initial date of application for the Group for IFRS 17 will be 1 July 2023 and the transition date will be the opening balances as at 1 July 2022.

#### 4. Critical accounting estimates and judgements

The Group makes estimates and assumptions in respect of assets and liabilities. Estimates and assumptions are re-evaluated on an on-going basis, based on historic experience and other factors, including expectations with regard to future events that are deemed reasonable under the circumstances.

##### 4.1 Policyholder liabilities

The value of the policyholder liabilities is based on estimates that are in turn based on assumptions. The assumptions represent best estimates of the expected future experience and are based on actual experience and reasonable expectations of what may happen in future. The future experience will probably differ from these assumptions, which may in turn require the value of policyholder liabilities to be adjusted. The full details of these valuation assumptions for estimates are set out in note 15 of the notes to the summarised financial statements.

##### 4.2 Other assumptions and estimates

Other assumptions and estimates included in the annual financial statements for the year ended 30 June 2022 addresses the following items:

- Provision for deaths not yet reported
- Valuation of investment property
- Valuation of subsidiaries
- Employee benefit obligations
- Assets at fair value through profit and loss with unobservable inputs
- Deferred tax asset
- Impairment losses on financial assets
- Lease liabilities and right-of-use assets

## AVBOB MUTUAL ASSURANCE SOCIETY AND ITS SUBSIDIARIES

### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022 (continued)

#### 5. Management of insurance and financial risk

##### 5.1 Insurance and financial risk

The Group issues contracts that contain either insurance or financial risks, or both. Insurance risk is the risk that claims and expenses exceed the value placed on insurance liabilities. The Group's activities expose it to a variety of financial risks: market risk (including equity risk, currency risk and interest rate risk), credit and counterparty risk, liquidity risk and contractual risk.

The summarised financial statements do not include all financial risk management information and disclosures required in the annual financial statements and should be read in conjunction with the annual financial statements for the year ended 30 June 2022.

##### 5.2 Capital management

The Group's objectives when managing capital is to safeguard the Society's ability to continue as a going concern to provide policyholder and member benefits.

The Group manages capital by targeting a SCR cover of 2.6 times by own funds and by ensuring that sufficient liquid assets are available if required and that the available investments are of a suitable quality. The Society's SCR was covered 2.6 times by own funds as at 30 June 2022 and 30 June 2021 and was within the risk appetite. The Society did not experience an event which negatively impacted its SCR cover ratio.

The SCR is the minimum amount by which the value of own funds (excess assets) must exceed the value of the policyholder liabilities as required by the Prudential Authority (PA). As a mutual society, the Society does not have access to capital markets and consequently aims to keep excess assets at a multiple of the SCR required by the PA. If the ratio decreases (for instance following a market value shock or other catastrophe), the Board of Directors has approved planned management actions that allow the Society to return to the targeted coverage ratio within risk appetite.

The Society and the Group are exposed to financial risk through their financial assets, financial liabilities, reinsurance contracts and insurance liabilities. In essence, the financial risk is the possibility that adverse changes in the market will result in the Society not being able to meet its obligations. The most important elements of financial risk include market risk (equity risk, interest rate risk and currency risk), credit and counterparty risk and liquidity risk.

The Society manages financial assets using an asset distribution analysis approach that was developed to maximise long-term investment yield, while taking into consideration the nature of its liabilities. The Society outsources the management of its balanced portfolio investments to six leading asset managers. These asset managers are expected to manage their portfolio in accordance with agreed-upon mandates. In addition, the total asset distribution of the Society is managed in accordance with the guidelines set by the PA. The Society has adequate capital cover on the SCR on the basis of the Insurance Act as at 30 June 2022.

Asset-liability modelling investigations are performed periodically by the Head of Actuarial Function (HAF). The outcome is used to determine whether the asset distribution guidelines unduly expose the Society to insolvency risk based on the nature of the liabilities (guaranteed and discretionary liabilities). An asset-liability modelling investigation was performed during the 2022 financial year and did not lead to any material changes to the asset distribution guidelines.

## AVBOB MUTUAL ASSURANCE SOCIETY AND ITS SUBSIDIARIES

### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022 (continued)

#### 5. Management of insurance and financial risk (continued)

##### 5.2 Capital management (continued)

Core aspects of the mandate given to the asset managers:

- The total asset distribution of the Society must be managed in accordance with the guidelines set by the PA.
- A target allocation of 30% of the total applicable assets are to be invested in local liquid assets with approximately 70% of the total applicable assets to be invested in equity risk assets.
- Investments in the Financial Sector Code (FSC) portfolio are restricted to those that should be recognised in terms of the Financial Sector Code. All unlisted investments require written approval.
- In the other portfolios, investments in equities and securities must be listed on a recognised exchange and listed securities must meet minimum credit rating criteria.
- Derivative instruments are only allowed for efficient portfolio management and hedging purposes. The effective exposure for all derivative positions is limited to 10% of the fair value of the investment portfolio. Effective exposure to any over-the-counter counterparty is limited to 7.5% of the investment portfolio.
- No scrip lending is allowed.

The following table compares the assets of the Society with the asset distribution guidelines:

|                                              | Board guideline % | 2022 |            | Restated 2021 |            |

| Cash and cash equivalents*                   |                   | 9    | 2 257 067  | 10            | 2 406 692  |
| Securities and bonds*                        |                   | 20   | 5 290 595  | 19            | 4 399 290  |
| Unlisted securities                          |                   | 0    | 150 069    | 0             | 95 772     |
| <b>Total applicable assets</b>               | 100               | 100  | 26 255 805 | 100           | 23 853 764 |
| Linked financial assets at amortised cost    |                   |      | 8 527 828  |               | 4 245 964  |
| <b>Total assets</b>                          |                   |      | 34 783 633 |               | 28 099 728 |

The Board and the HAF are comfortable that the asset distribution as at 30 June 2022 is in line with our risk appetite.

\* Refer to note 22 of the notes to the summarised financial statements regarding the restatement of the 2021 comparatives.

**AVBOB MUTUAL ASSURANCE SOCIETY  
AND ITS SUBSIDIARIES**

**NOTES TO THE SUMMARISED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022  
(continued)**

**5. Management of insurance and financial risk (continued)**

**5.3 Fair value hierarchy**

The following fair value measurement hierarchy is applied to financial assets and liabilities measured at fair value that are measured in the statements of financial position:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as priced) or indirectly (that is, derived from prices) (Level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The following table presents the Society's assets and liabilities that are measured at fair value:

|                                                                      | Level 1<br>R 000  | Level 2<br>R 000 | Level 3<br>R 000 | Total<br>R 000    |
|----------------------------------------------------------------------|-------------------|------------------|------------------|-------------------|
| <b>At 30 June 2022</b>                                               |                   |                  |                  |                   |
| <b>Assets</b>                                                        |                   |                  |                  |                   |

\* Refer to note 22 of the notes to the summarised financial statements regarding the restatement of the 2021 comparatives.

The difference between assets and liabilities measured at fair value for the Society and Group is property and investment property to the value of R502,2 million (2021: R463,5 million) and Level 2 unlisted investments to the value of R142,9 million (2021: Rnil).

# FINANCIAL STATEMENTS Continued

## AVBOB MUTUAL ASSURANCE SOCIETY AND ITS SUBSIDIARIES

### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022 (continued)

#### 5. Management of insurance and financial risk (continued)

##### 5.3 Fair value hierarchy (continued)

At the financial year end, investments classified as Level 1 comprise approximately 70% (2021: 69%) of financial assets measured at fair value on a recurring basis. Fair value measurements classified as Level 1 include exchange-traded prices of fixed maturity and equity securities.

At the financial year end, investments classified as Level 2 comprise approximately 23% (2021: 24%) of financial assets measured at fair value on a recurring basis. They primarily include government and agency securities, and certain listed and unlisted corporate debt securities and investments in collective investments. Investments in collective investments are valued at closing prices determined by the respective fund managers. As market quotes generally are not readily available or accessible for the securities, their fair value measures are determined utilising relevant information generated by market transactions involving comparable securities. They are often based on model pricing techniques that effectively discount prospective cash flows to present value using appropriate sector-adjusted credit spreads commensurate with the security's duration, also taking into consideration issuer-specific credit quality and liquidity. These valuation methodologies have been studied and evaluated by the Society and the resulting prices determined to be representative of exit values.

Observable inputs generally used to measure the fair value of securities classified as Level 2 include benchmark yields, reported secondary trades, broker-dealer quotes, issuer spreads, benchmark securities, bids, offers and reference data. Additional observable inputs are used when available and as may be appropriate for certain security types, such as prepayment, default and collateral information for the purpose of measuring the fair value of mortgage- and asset-backed securities.

At the financial year end, investments classified as Level 3 comprise approximately 7% (2021: 7%) of financial assets measured at fair value on a recurring basis. They primarily include unlisted preference shares, investments in subsidiaries and unlisted investments in renewable energy infrastructure. Determinations to classify fair value measures within Level 3 of the valuation hierarchy are generally based on the significance of the unobservable factors to the overall fair value measurement.

The Society issues a significant number of investment contracts that are designated at fair value through profit and loss. These investment contracts are not quoted in active markets and their fair values are determined through valuation techniques. Such techniques (for example, valuation models) are validated and periodically reviewed by qualified personnel independent of the area that created them. All models are validated before they are used and calibrated to ensure that outputs reflect actual experience and comparable market prices. A variety of factors are considered in the Society's valuation techniques, including time value, credit risk (both own and counterparty), volatility factors (including contract holder behaviour), servicing costs and activity in similar instruments. Since significant inputs are based on unobservable inputs, these investment contract liabilities are classified as Level 3 instruments in the fair value hierarchy.

\* Property consist of owner-occupied property and investment property.

The Society invested in unlisted investments in respect of renewable energy infrastructure. The fair value of these investments is determined using a discounted cash flow valuation methodology using appropriate risk adjusted cost of capital, taking the various projects' stages of construction completion and the achievement of commercial operations into consideration. The most significant impact on the fair value of the Group's investment in a renewable energy infrastructure partnership is the operational performance of the respective renewable energy plants the partnership has invested in.

Both the Head Office and the annex buildings were valued by The Valuation Agency on 1 May 2022. Three other high value properties of the Society were valued by an independent external valuator during the year ended 30 June 2022. All other fixed properties for own use were formally valued by the directors at 30 June 2022. The carrying values of the properties were adjusted to the revalued amounts and the fair value adjustment was charged to the revaluation reserve. The market value is reviewed and adjusted annually by the directors.

All the Society's investment properties are owner-occupied within the Group. No investment property is pledged as security. The fair value measurement is classified as Level 3.

The fair values of investments in subsidiaries are based on the weighted average cost of capital (WACC) of each subsidiary, which are calculated based on a gross risk-free interest rate, an assumed equity risk premium, a market assessed risk factor (beta), and an allowance for subordinated debt on a market value basis. The market assessed risk factor (beta) captures the market's view of the effect of all types of risk on the subsidiaries' operations, including operational and other non-economic risk.

The recoverable amount of a subsidiary is determined based on an income approach calculation. These calculations use cash flow projections based on approved financial budgets covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates.

The amounts in the net future cash outflows summarise the expected cash flows allowing for premium receipts, claim payments and policyholder behaviour consistent with the valuation methodology. All the cash flows are gross of reinsurance. The cash flows are not discounted and the effect of discounting is shown to reconcile to total policyholder liabilities.

Net future cash outflows:

# FINANCIAL STATEMENTS Continued

## AVBOB MUTUAL ASSURANCE SOCIETY AND ITS SUBSIDIARIES

### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022 (continued)

#### 15. POLICYHOLDER LIABILITIES (continued)

##### Long-term life insurance contracts

##### 15.1 Assumptions

The value of the policyholder liabilities has been calculated using best estimate assumptions regarding the future experience of the business. These assumptions are generally determined based on recent past experience with appropriate adjustments for future trends. For prudence the actuaries add compulsory and discretionary margins to the best estimate liability. The best estimate assumptions and compulsory margins are set out in this section.

- **Mortality assumption**

The mortality assumptions have been based on the results of the most recent experience investigation for the Society. This investigation covers the period from 1 January 2021 to 31 December 2021. The level of the best estimate assumption was revised to be closer to the current actual experience in line with the investigation.

- **Withdrawal assumptions**

A full withdrawal investigation was performed over the period 1 January 2021 to 31 December 2021. Withdrawal rates were split into two categories: premium-paying and paid-up rates. The best estimate assumption was revised to over time be closer to the actual experience.

- **Expense assumptions**

The valuation assumption at the previous year end (including the assumed level of inflation for the year) was lower than the 2022 forecast cost per policy at the same date. The forecast cost per policy for this purpose was determined using an 88%:12% (2021: 88%:12%) allocation of specific costs between the Society and certain of its subsidiaries. The assumed maintenance cost in 2022 has been set to a level half way between the actual 2022 cost per policy and the 2023 budgeted cost per policy, allowing for inflation.

Administration costs are expressed separately for costs relating to premium collection and administration, and other administration costs. It is further assumed that the administration cost of an assistance policy is two-thirds the level of cost of a life policy. It is also assumed that the cost of administering a life policy increases by 20% for each additional life assured under the policy. The assumptions are consistent with the approach in the previous year.

- **Economic assumptions**

The assumed future investment return is based on the assumed spread between asset classes and the assumed returns on each asset class. The assumed spread of assets has remained the same as the previous year.

The risk-free rate assumption is 11.4% (2021: 9.9%) per annum.

The assumed rate of expense inflation is 8.6% (2021: 7.2%) per annum. The returns above are gross of investment expenses.

- **Tax assumption**

The Society currently has an assessed tax loss in the Individual Policyholder Fund. The forecast cash flows from the valuation system indicates that in future, on the valuation basis, the tax payable on investment returns is expected to exceed the tax relief arising from policy administration cost. It is therefore assumed that investment returns will be subject to tax and administration costs will be subject to tax relief. This is consistent with the approach adopted in the previous year.

Dividend withholding tax has remained at 20% in accordance with legislation.

**AVBOB MUTUAL ASSURANCE SOCIETY  
AND ITS SUBSIDIARIES**

**NOTES TO THE SUMMARISED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022  
(continued)**

**15. POLICYHOLDER LIABILITIES (continued)**

**15.1 Assumptions (continued)**

• **Bonus rates on with-profit policies**

The Society's interpretation of policyholder reasonable benefit expectations regarding bonuses has been documented in the Principles and Practices of Financial Management (PPFM). Policyholder reasonable benefit expectations regarding future bonus distributions are considered in determining the policyholder liabilities. The bonus rate assumptions are unchanged from the previous year.

The following future experience elements are not covered by the PPFM:

- Non-profit policyholders will receive no future bonus declarations. Past declared "ad-hoc" or special bonus increases will remain, but no further special bonuses will be declared to these policies.

**15.2 Compulsory margins**

The best estimate assumptions have been adjusted for the following compulsory margins:

| Assumption                         | Margin                                     |
|------------------------------------|--------------------------------------------|
| Mortality                          | Increase mortality rates by 7.5%           |
| Disability                         | Increase disability rates by 10%           |
| Lapses                             | Increase / decrease lapse rates by 25%     |
| Surrenders                         | Increase / decrease surrender rates by 10% |
| Investment return                  | Decrease investment returns by 0.25%       |
| Expenses                           | Increase expenses by 10%                   |
| Transport and funeral subsidy cost | Increase expenses by 10%                   |
| Expense inflation                  | Increase escalation by 10%                 |
| Average number of children         | Increase number of children by 20%         |
| Premium escalation take-up rate    | Increase take-up rate by 10%               |

**15.3 Change in valuation methodology**

For the year under review no changes were made to the valuation methodology.

**15.4 Change to valuation assumptions**

For the year under review a number of changes were made to the assumptions which had an impact on earnings. The impact of these changes on the pre-tax earnings for the year is as follows:

- The retrenchment claim rate assumption was changed to more closely reflect the claims experience, resulting in a profit of R63,7 million
- The actual mortality experience during 2021 was below the expected experience. The assumptions were updated and this resulted in a profit of R192,3 million. This was mostly due to the mortality assumption on child benefits, resulting in a profit of R118,6 million. A reduction in the accidental death assumption on the cashback funeral product resulted in a profit of R96,4 million. Increases to the mortality assumption on assistance and level premium products resulted in losses of R55,4 million and R31,0 million respectively.
- The renewal expense assumption per policy reduced, resulting in a profit of R325,2 million.
- The average age calculation on parent and extended lives was improved, which resulted in a profit of R89,8 million.
- The economic assumptions were changed to reflect the expected future investment returns, based on the long term assumed assets held by the business, as well as the expected future inflation rate. The inflation gap remained unchanged at 2.8% below bond yields. The change in the economic assumptions resulted in a loss of R129,3 million.

### NOTES TO THE SUMMARISED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2022 (continued)

#### 15. POLICYHOLDER LIABILITIES (continued)

##### 15.5 Sensitivity analysis of the policyholder liabilities

The policyholder liabilities are calculated according to best estimate assumptions plus compulsory margins - the valuation assumptions. To illustrate sensitivity to the assumptions, changes in the valuation assumptions were calculated, as set out in the following table:

|                                  | Change in the liability |               |
|----------------------------------|-------------------------|---------------|
|                                  | 2022<br>R 000           | 2021<br>R 000 |
| 10% increase in mortality        | 1 154 899               | 1 250 968     |
| 1% decrease in investment return | 1 103 334               | 1 145 127     |
| 10% increase in expenses         | 977 933                 | 901 330       |
| 1% increase in expense inflation | 1 143 701               | 1 070 238     |
| 20% increase in lapses           | ( 476 553)              | ( 418 375)    |
| 10% increase in surrenders       | ( 21 238)               | ( 25 323)     |
| 10% decrease in surrenders       | 32 700                  | 28 457        |

The analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, as changes in some of the assumptions may be correlated. A correlation exists between the inflation rate and investment returns, as well as between the inflation rate and renewal expenses.

|                                                    | SOCIETY       |               | GROUP         |               |

Financial liabilities at amortised cost comprise of single premium investment product liabilities. Refer to note 14 of the notes to the summarised financial statements for the associated asset.

Included in the amortised cost is day one fair value of R100,5 million (2021: R66,3 million) that is amortised over the period of the contract. The market value of the financial liability at amortised cost is R8 228,0 million (2021: R4 393,1 million).

#### 17. EMPLOYEE BENEFIT OBLIGATIONS

The Group has liabilities in respect of gratuities and medical benefits payable to qualifying employees with- and post-retirement. The gratuities payable with-retirement is a percentage of total guaranteed package, with certain employees being limited to a R50 000 benefit. The medical benefits payable post-retirement are equivalent to 50% of the total medical contribution on the chosen benchmark plan at retirement. The medical contribution subsidy increases annually with CPI up to a maximum of 10%. The current benchmark plan is the Discovery Health Classic Priority plan with 25% savings. The annual amount and payment of the pensioner benefit is at the discretion of the Society. The estimated cost of these benefits is provided over the projected service periods of employees. The valuation of these liabilities is performed by management based on the projected unit credit method. Any surplus or shortfall between the actuarial valuation and the accumulated liability is apportioned to and from the statement of comprehensive income as other comprehensive income. Employees appointed after 1 November 1998 (post-retirement benefit), 1 November 2000 (with-retirement benefit) and employees who retired after 31 October 2019 (pensioners' benefit) do not qualify for these benefits.

**AVBOB MUTUAL ASSURANCE SOCIETY  
AND ITS SUBSIDIARIES**

**NOTES TO THE SUMMARISED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022  
(continued)**

**17. EMPLOYEE BENEFIT OBLIGATIONS (continued)**

The number of participating members in respect of gratuity payments of the Society totals 73 (2021: 73), the medical benefit totals 8 (2021: 8) and the pensioner benefits totals 144 (2021: 166). The number of participating members in respect of gratuity payments of the Group totals 114 (2021: 114), the medical benefit totals 26 (2021: 26) and the post-pensioner benefits 283 (2021: 317). Managers who retired from 1 November 1998 do not qualify for the pensioner benefit.

The Group operates a Long-term incentive plan (LTIP) in the Society in which the subsidiaries participate. The increase in the fair value of the share scheme units is recognised as an expense in the same period in which the employees' services are rendered.

**Five year summary of employee benefit obligations:**

\* Benefits include bonuses, leave pay and employer pension contributions.

Prior year benefits have been restated to exclude the LTIP payments per note 17.

Refer to note 17 for the LTIP payments to directors in the Group.

#### 19. OTHER COMMITMENTS

The Society has an interest in two private equity infrastructure partnerships. The Society committed itself to a R250,0 million investment (2021: R250,0 million), of which the partnerships can still call on Rnil million at 30 June 2022 (2021: R86,0 million). The partnerships calls on funds in relation to the partnership interest.

The Society pays performance fees to some of its asset managers. The Society has a present obligation of R59,5 million (2021: R46,0 million) in respect of asset manager performance fees carried forward to future periods. The timing of when this performance fee will become due is dependent on the asset managers' future performance and continued rendering of asset management services to the Society.

#### 20. EVENTS SUBSEQUENT TO YEAR END

No matter, which is material to the financial affairs of the Group as disclosed in these financial statements, has occurred between the financial year end and the date of approval of the financial statements.

AND ITS SUBSIDIARIES**

**NOTES TO THE SUMMARISED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022  
(continued)**

**21. RESTATEMENT - CLASSIFICATION OF DIVIDENDS RECEIVED AND INTEREST RECEIVED AS INVESTMENT INCOME**

Dividends received and interest received were previously disclosed in net fair value gains on financial assets at FVPL. Considering the nature of this income, it is deemed to be more accurate to disclose it as part of investment income. In addition, the remaining net fair value gains on financial assets at fair value through profit and loss were reclassified as other gains in the statements of comprehensive income. The reclassification adjustment had an impact on the statements of comprehensive income, but no impact on profit before transfer to policyholder liabilities or the income tax expense.

**22. RESTATEMENT - CLASSIFICATION BETWEEN CASH AND CASH EQUIVALENTS AND FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT AND LOSS**

A short-term interest-bearing income fund that is actively used for operational cash purposes in the Society's Financial Sector Code investment portfolio was previously disclosed as cash and cash equivalents. Considering the nature of this income fund, it is deemed to be more accurate to disclose it as part of financial assets at FVPL. The reclassification adjustment had an impact on cash and cash equivalents and financial assets at fair value through profit and loss in the statements of financial position and the statements of cash flows. The reclassification adjustment had no impact on profit before transfer to policyholder liabilities or the income tax expense.

**NOTES TO THE SUMMARISED FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 JUNE 2022  
(continued)**

**23. RESTATEMENT - CLASSIFICATION OF INTEREST EXPENSE BETWEEN CASH GENERATED BY OPERATING ACTIVITIES AND MOVEMENT OF FINANCIAL LIABILITY AT AMORTISED COST**

The interest expense and the cash flow movement of the financial liability at amortised cost was not disclosed correctly in the cash flow statement in the prior year. The interest expenses was not disclosed as a non-cash flow item and the movement of the liability was disclosed as a net movement and was not grossed into the separate cash flow components. The reclassification adjustment has an impact on the statement of cash flows only. The reclassification adjustment had no impact on profit before transfer to policyholder liabilities or net income tax expense.
