# Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of JAI A/S for the financial year 1 April 2020 - 31 March 2021.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 31 March 2021 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2020/21.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Copenhagen, 17 August 2021

# Independent Auditor's Report

To the Shareholder of JAI A/S

## Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 March 2021 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 April 2020 - 31 March 2021 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of JAI A/S for the financial year 1 April 2020 - 31 March 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

# Independent Auditor's Report

## Management's responsibilities for the Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

## Independent Auditor's Report

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Management's Review

## Key activities

The principal activities of JAI A/S are development, production and sale of quality machine vision products and ITS Systems.

## Development in the year

The financial year ending 31. March 2021 was significantly different than previous years. JAI has been through an extreme transformation by taking necessary steps to handle the safety of all employees during the global pandemic. In addition to this, several key activities have been initiated to further strengthen the company for future growth:

## Significant highlights

- Building an entire new Asian organization with a head office in Singapore, covering China, Korea, Taiwan, and Singapore
- Released completely new Go-X product line with superb quality, reliability, and exceptional pricing
- Opening a new manufacturing facility in Singapore for JAI's new Go-X product series
- A new branch office in Korea
- A new Global Modification Center in US, to support demanding customizations globally
- A new Global Marketing Organization
- Enhanced Sales & Distribution globally by adding new partners in key markets

## Management's Review

- Advanced Supply Chain processes with an entire new global sourcing strategy
- Release of exceptional high resolution 25mpix and 45mpix area scan cameras, with excellent market positioning within the Spark Series
- Added new prism-based multi-sensor camera models to its specialized Apex- and Fusion Series, targeted for advanced color and multispectral imaging
- Released Fusion Flex-Eye to expand its offerings of customized cameras in growing multispectral markets- Expansion of JAI's product offerings with an entire new Lens Collection, tailored to customer needs

This will further consolidate JAI's long term commitment and focus on a global level, as well as important Asian markets.

### Financial highlights

The income statement of the Group for 2020/21 shows a profit of KEUR 683, and at 31 March 2021 the balance sheet of the Group shows equity of KEUR 31,155.

For 2020/2021, the Group achieved a revenue of KEUR 31,531 compared to KEUR 33,930 in 2019/20

Operating profit (EBIT) amounts to a profit of 988 KEUR compared to an Operating loss (EBIT) of KEUR 1,324 in 2019/2020. Net/profit loss for the year amounts to a profit of KEUR 683 compared to a loss KEUR 1,039 in 2020/21.

The equity of the group decreased from KEUR 32,504 in 2019/20 to KEUR 31,155 in 2020/21, corresponding to an decrease of KEUR 1,349.

At the end of the financial year 2020/2021, the JAI Group is still a solid group with a solvency of 73,9% and cash at bank and in hand of KEUR 14,577.

The development in turnover and net profit/loss for the year is better than expected. This is partial driven by an increased Gross Margin which has increased from 36,1% in 2019/20 to 43,6% in 2021/20.

Therefore, the net profit/loss for the year in line with the expectations.

# Management's Review

## Subsidiaries/Branches

All subsidiaries/Branches in the JAI group are 100% owned by JAI A/S.

### JAI Germany (Branch)

JAI Germany delivers service and repair services for the EMEA region and forms a branch of JAI A/S.

### JAI in Japan

Among other things, the subsidiaries in Japan handle development and production of cameras for the JAI Group. Furthermore, they handle delivery of products to Asia and the Pacific region. For 2020/2021, JAI Ltd. achieved a loss of KEUR 151 compared to a loss of KEUR 23 in 2019/2020.

### JAI in USA

Among other things, the subsidiary in the US handles production of camera and delivery of products to the North American markets. For 2020/2021, JAI Inc. achieved a profit of KEUR 1,808 compared to a loss of KEUR 188 in 2019/20

### JAI in Singapore

The newly opened subsidiary in Singapore is the regional sales office for ASIA. For 2020/2021, JAI Asia achieved a loss of KEUR 81,9.

## Expectations for the future

The Company's outlook for the future is very positive and the steps taking during the last financial year with substantial investments in product portfolio and workforce are expected to further grow the company.

The appointment of new CEO from April 1st 2021 marks a further step in JAI's growth strategy, centered around the tremendous opportunities of the fast-developing Machine Vision market and JAI's unique capabilities built up over more than half a century.

Based on our expectations for the future and with reservation of negative impact of the global components shortage and continuous challenges imposed by the global pandemic, we expect an increase in revenue and earnings of 15-30% compared to previous financial year.

# Management's Review

## Risks

### *General risks*

The Group's most significant operating risks relates to the ability to be strongly positioned in the market and to remain a market leader in terms of the technological developments within the Group's business areas.

### *Financial risks*

As part of its operations, investments, and financial affairs the Group is exposed to changes in foreign exchange rates and interest rate levels. It is Group policy not to engage in active speculation in financial risks. The Group Financial Management is thus directed solely at managing existing financial risks.

### *Currency risks*

The Group is affected by changes in foreign exchange rates, as the net profit/loss for the year of foreign subsidiaries is translated into EUR based on average exchange rates at the Balance Sheet date.

The Group currency risks are primarily hedged by matching income/expenses and short term asset/liabilities in the same currency and by the use of financial instruments.

The Group have no hedging of long term group asset and liabilities. The net foreign exchange gain of year 2020/21 amounts to KEUR 15 are primarily due to unrealized loss from group entities.

# Management's Review

## Intellectual capital and research and development activities

### Intellectual capital

JAI's intellectual capital comprises customer relations, employees, technologies, and processes.

Skilled and committed employees are a prerequisite for the Group results. The working environment is informal and with a large degree of freedom and responsibility delegated to each employee. Employee skills are maintained and developed currently.

The JAI Group has considerable know how within advanced camera technology and traffic systems, which is maintained and developed on an ongoing basis.

Product development takes place in Japan, USA and Denmark. It is strategically important to JAI to undertake development activities on these three continents.

Production takes place in Japan, Singapore and USA. JAI has considerable experience in the production of advanced cameras where quality requirements are high.

### Research and development activities

In 2020/21 the Group incurred research and development costs of KEUR 2,204 against KEUR 2,160 in 2019/20. Development costs of KEUR 1,352 were capitalized in 2020/21 compared to KEUR 1,220 in 2019/20

Capitalized research and development projects in progress amounted to KEUR 40 at 31 March 2021.

### Quality systems

Quality has a high priority at JAI, and the Company strives for the best possible quality in all respects.

All companies in the JAI Group are ISO 9001:2015 / ISO 14001:2008 certified. JAI's quality management systems are subject to constant development and improvement.

## Subsequent events

No events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

### Deferred tax asset

The presentation of the Annual Report involves a calculation of the carrying amount of certain assets and liabilities which is subject to various assessments, estimates and assumptions about future events. These are often based on factors that in certain circumstances are considered reasonable and correct by Company Management at the time of reporting. In the nature of the case, however, these factors are often associated with some degree of uncertainty and predictability.

A deferred tax asset of a total value of EUR 1,543k (2020: EUR 1,588k) is recognised in the Financial Statements. The tax asset is recognised to the extent that it is considered probable that the tax asset may be realised within the foreseeable future. The amount has been determined on the basis of the budget prepared for 2021/22 and estimates for 2022/23 and 2023/24, so that the amount is based on an estimate of the probable future taxable profit for those periods.

	<b>904</b>	<b>1,044</b>	<b>193</b>	<b>270</b>

### Other contingent liabilities

The danish group companies are jointly and severally liable for tax on the jointly taxed incomes etc of the Group. The total amount of corporation tax payable is disclosed in the Annual Report of JAI Group Holding ApS, which is the management company of the joint taxation purposes. Moreover, the danish group companies are jointly and severally liable for Danish withholding taxes by way of dividend tax, tax on royalty payments and tax on un-earned income. Any subsequent adjustments of corporation taxes and withholding taxes may increase the Company's liability.

The Parent Company has provided absolute guarantee for the subsidiary, JAI Aviation ApS', bank institution.

Jørgen Andersen, Langelinie Allé 27 A, 5, 2100 København Ø.

# Notes to the Financial Statements

## 21 Accounting Policies

The Annual Report of JAI A/S for 2020/21 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

With regards to the true and fair view of the financial statements, certain reclassifications have been made in the balance sheet and notes. Comparative figures have been adjusted accordingly.

The accounting policies applied remain unchanged from last year.

The Consolidated and Parent Company Financial Statements for 2020/21 are presented in KEUR.

### Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

### Basis of consolidation

The Consolidated Financial Statements comprise the Parent Company, JAI A/S, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and losses on transactions between the consolidated enterprises.

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

# Notes to the Financial Statements

## 21 Accounting Policies (continued)

### Business combinations

#### ***Business acquisitions carried through on or after 1 July 2018***

Acquisitions of subsidiaries are accounted for using the purchase method under which the identifiable assets and liabilities of the entity acquired are measured at fair value at the time of acquisition. Acquired contingent liabilities are recognised at fair value in the Consolidated Financial Statements to the extent that the value can be measured reliably.

The time of acquisition is the time when the Group obtains control of the entity acquired.

The cost of the entity acquired is the fair value of the consideration agreed, including consideration contingent on future events. Transaction costs directly attributable to the acquisition of subsidiaries are recognised in the income statement as incurred.

Positive differences between the cost of the entity acquired and identifiable assets and liabilities are recognised as goodwill in intangible assets in the balance sheet and are amortised in the income statement on a straight-line basis over their estimated useful lives. Amortisation of goodwill is allocated in the Consolidated Financial Statements to the operations to which goodwill is related. Where the differences are negative, they are recognised immediately in the income statement.

Where the purchase price allocation is not final, positive and negative differences from acquired subsidiaries due to changes to the recognition and measurement of identifiable net assets may be adjusted for up to 12 months after the time of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.

Where cost includes contingent consideration, this is measured at fair value at the time of acquisition. Contingent consideration is subsequently measured at fair value. Any value adjustments are recognised in the income statement.

In respect of step acquisitions, any previously held investments in the entity acquired are remeasured at fair value at the time of acquisition. The difference between the carrying amount of the investment previously held and the fair value is recognised in the income statement.

#### ***Business acquisitions carried through before 1 July 2018***

Subject to some exemptions, acquisitions carried through before 1 July 2018 are accounted for under the same accounting policies as those applying to business combinations carried through on or after 1 July 2018. The most material exemptions are:

- Identifiable assets and liabilities of the entity acquired are recognised only if they are probable.

# Notes to the Financial Statements

## 21 Accounting Policies (continued)

- Identifiable contingent liabilities of the entity acquired are not recognised in the consolidated balance sheet.
- Where the purchase price allocation is not final, positive and negative differences due to changes to the recognition and measurement of the acquired net assets may be adjusted until the end of the financial year following the year of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.
- Transaction costs directly attributable to the acquisition of subsidiaries are included as part of cost.
- After the initial recognition, adjustment of contingent consideration is recognised directly with its counter entry in initial purchase price, thus correcting the value of goodwill or negative goodwill.
- In respect of step acquisitions, the carrying amount of the existing investments is recognised in cost.

### Leases

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or an alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Group.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

### Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

# Notes to the Financial Statements

## 21 Accounting Policies (continued)

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

## Income Statement

### Revenue

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Group.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

### Expenses for raw materials and consumables

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve revenue for the year.

### Other external expenses

Other external expenses comprise indirect production costs and expenses for premises, sales and distribution as well as office expenses, etc.

### Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses.

### Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

### Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group, including gains and losses on the sale of intangible assets and property, plant and equipment.

# Notes to the Financial Statements

## 21 Accounting Policies (continued)

### **Income from investments in subsidiaries**

The item “Income from investments in subsidiaries” in the income statement includes the proportionate share of the profit for the year.

### **Financial income and expenses**

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

### **Tax on profit/loss for the year**

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with wholly owned Danish subsidiaries and the Danish parent company. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

## **Balance Sheet**

### **Intangible assets**

#### ***Development projects, patents and licences***

Costs of development projects comprise salaries, amortisation and other expenses directly or indirectly attributable to the Company’s development activities.

Development projects that are clearly defined and identifiable and in respect of which technical feasibility, sufficient resources and a potential future market or development opportunity in the Group can be demonstrated, and where it is the intention to manufacture, market or use the project, are recognised as intangible assets. This applies if sufficient certainty exists that the value in use of future earnings can cover cost of sales, distribution and administrative expenses involved as well as the development costs.

Development projects that do not meet the criteria for recognition in the balance sheet are recognised as expenses in the income statement as incurred.

As of the date of completion, capitalised development costs are amortised on a straight-line basis over the period of the expected economic benefit from the development work. The amortisation period is 5 years.

Patents and licences are measured at cost less accumulated amortisation and less any accumulated impairment losses or at a lower value in use.

# Notes to the Financial Statements

## 21 Accounting Policies (continued)

Patents are amortised over the remaining patent period or a shorter useful life. The amortisation period is 5 years. Software licences are amortised over the period of the agreement, which is 5 years.

### Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Buildings	20-50 years
Fixtures and equipment	3-20 years
Leasehold improvements	3-10 years
Property, plant and equipment	3-20 years

Depreciation period and residual value are reassessed annually.

### Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

### Investments in subsidiaries

Investments in subsidiaries are recognised and measured under the equity method.

The item "Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries.

# Notes to the Financial Statements

## 21 Accounting Policies (continued)

Subsidiaries with a negative net asset value are recognised at EUR 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

### **Other fixed asset investments**

Other fixed asset investments consist of deposits.

### **Inventories**

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale, raw materials and consumables equals landed cost.

The cost of finished goods and work in progress comprises the cost of raw materials, consumables and direct labour with addition of indirect production costs. Indirect production costs comprise the cost of indirect materials and labour as well as maintenance and depreciation of the machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management.

### **Receivables**

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

### **Prepayments**

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

### **Equity**

#### ***Dividend***

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

### ***Treasury shares***

Purchase and sales prices for treasury shares are recognised directly in retained earnings under equity. A reduction of capital by cancellation of treasury shares reduces the share capital by an amount equal to the nominal value of the shares and increases retained earnings. Dividend on treasury shares is recognised directly in equity under retained earnings.

### **Provisions**

Provisions are recognised when - in consequence of an event occurred before or on the balance sheet date - the Group has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

Other provisions include warranty obligations in respect of repair work within the warranty period of 3 years. Provisions are measured and recognised based on experience with guarantee work.

### **Deferred tax assets and liabilities**

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

### **Current tax receivables and liabilities**

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

### Financial debts

Mortgage loans are measured at amortised cost, which for cash loans corresponds to the remaining loan. Amortised cost of debenture loans corresponds to the remaining loan calculated as the underlying cash value of the loan at the date of raising the loan adjusted for depreciation of the price adjustment of the loan made over the term of the loan at the date of raising the loan.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

### Cash Flow Statement

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

#### Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

#### Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

#### Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

#### Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand".

The cash flow statement cannot be immediately derived from the published financial records.
