Solutions for the project lifecycle

JDM Technology Group solutions can help you proactively manage each stage of the project lifecycle, from design and estimating, to construction, and into operations and maintenance. With customers on every continent, we have a diverse customer base of more than 17,000+ customers and employ 600+ staff. JDM has a core business philosophy of long-term commitment to customer service, coupled with providing the best possible solutions to customers, we ensure every business we operate functions with the customer's needs at the forefront. Our industry specific solutions are functionally rich, scalable, and designed to handle the complex and ever evolving requirements of the construction industry and built environment.

Our Acquisition Strategy

JDM Technology Group buys exceptional vertical market software companies. At JDM, we take a long-term approach. We employ a buy and build strategy, acquiring software solution providers to grow market share and provide our customers with the best possible solutions.
