PAT. NO.	Title
1 9,964,470	Methods and apparatus for indoor air contaminant monitoring
2 9,651,531	Air sampling system providing compound discrimination via comparative PID approach
3 9,109,981	Methods and apparatus for indoor air contaminant monitoring
4 8,930,029	Methods and apparatus for differential energy based airside economizer changeover
5 8,725,300	Methods and apparatus for differential energy based airside economizer changeover
6 8,147,302	Multipoint air sampling system having common sensors to provide blended air quality parameter information for monitoring and building control
7 7,415,901	Duct probe assembly system for multipoint air sampling
8 7,389,704	Tubing for transporting air samples in an air monitoring system
9 7,389,158	Method of making comparisons of indoor air quality scores
10 7,360,461	Air monitoring system having tubing with an electrically conductive inner surface for transporting air samples
11 7,302,313	Air quality monitoring systems and methods
12 7,216,556	Tubing for transporting air samples in an air monitoring system
13 6,425,297	Networked air measurement system
14 6,252,689	Networked photonic signal distribution system
