AN/"Huntington Ingalls Incorporated"

PAT. NO.	Title
1 11,224,935	System and method for ultrasonic additive manufacturing
2 10,926,328	System and method for in-situ inspection of additive manufacturing materials and builds
3 10,915,754	System and method for use of augmented reality in outfitting a dynamic structural space
4 10,504,294	System and method for augmented reality discrepancy determination and reporting
5 10,227,803	Locking device
6 10,147,234	System and method for augmented reality display of electrical system information
7 9,996,551	System and method for determining and maintaining object location and status
8 9,978,542	Circuit breaker lockout devices and methods
9 9,947,138	System and method for augmented reality display of dynamic environment information
10 9,898,867	System and method for augmented reality display of hoisting and rigging information
11 9,865,087	Method and system for disambiguation of augmented reality tracking databases
12 9,864,909	System and method for using augmented reality display in surface treatment procedures
13 9,734,403	Augmented reality display of dynamic target object information
14 9,679,718	Knife switch safety device
15 9,618,555	System and method for impedance measurement using chirp signal injection
16 9,562,939	System and method for impedance measurement using series and shunt injection
17 9,493,327	Portable lifting rig
18 8,198,745	Tuned rolling wave energy extractor
19 8,072,715	Method, apparatus and computer program product for fault protection
