1. [WO/2005/034622](#) DRIFT-OFF INFORMATION SYSTEM

WO - 21.04.2005

Int.Class [A01M 7/00](#) **Appl.No** PCT/AT2004/000344 **Applicant** PESSL INSTRUMENTS GMBH **Inventor** PESSL, Gottfried

A drift-off information system for agricultural spraying devices [50] comprising sensors [20] for detecting climatic and environmental data and sensors [30] for detecting parameters of the agricultural spraying device. At least one of the sensors [20] for detecting climatic and environmental data is connected to a controller [PCB] which is configured for determination of climatic and environmental data from the output signals of said sensors, said controller being connected to a data bus [BUS], via bus interface [16], for outputting the determined climatic and environmental data. At least one of the sensors [30] for detecting parameters of the agricultural spraying device and one terminal [15] is connected to the data bus [BUS]. The terminal is configured for determining and outputting drift-off information from the climatic and environmental data outputted to the data bus and parameters of the agricultural spraying device [50].
