Goods and Services IC 007. US 013 019 021 023 024 031 034 035. G & S: Power-operated tools; Welding machines and apparatus and parts thereof; Material handling and fabrication machines for welding and production; Industrial robots; Robots for welding, installation and cutting; Automatic conveyor installation, including transportation and handling machinery used for welding and production; Electrodes for welding machines; Welding torches; Welding machines, gas-operated; Welding machines, electric; Wire welding machines; Spot welding machines; Submerged arc welding machines; Laser welding machines; High frequency welding machines; Welding and soldering machines and devices; Milling machines; Incineration cutting machines; Machinery for shaping metal, Trimming machines, Machine tools for milling, Metal cutting tools; Generators; Electric generators; Welding towers; Welding treatment tables and rotary tables for welding and installation; Assembling machines including assembling apparatus for weldable pieces; Filters for machines; Jigs for holding a component during machining and welding; Hangers for welding machines and apparatus; Roller beds for welding and assembly

IC 009. US 021 023 026 036 038. G & S: Downloadable computer software for database management; Computers and computer peripheral devices; Electric apparatus for the control of welding and cutting processes; Electrodes; Protective helmets, protective clothes and protective glasses for welders; Welding cables; Welding transformers; Measuring devices for welding purposes; Gas flow meters; Power supplies for welding and cutting equipment; Electric control apparatus, monitoring instruments and data collectors for welding purposes; Industrial automation software; Computer hardware and downloadable software for welding; Computer hardware and downloadable software for monitoring welding and welding quality; Data processing programs and recorded and downloadable computer software, in particular for recording, storing, transmitting and/or managing data relating to welding processes for use in the welding industry; Programming devices for metal machine tools; Checking apparatus for quality, dimension and surface control; Jigs as measuring instruments

IC 042. US 100 101. G & S: Industrial analysis, industrial research and industrial design services in the field of welding industries; Quality control and authentication services in the field of welding industries; Design and development of computer hardware and software; Scientific and technological services in the field of welding industries; Industrial analysis and industrial research services in the field of welding industries; Engineering services; Consultation on industrial processes; Engineering services relating to robotics; Design of manufacturing methods; Technological advisory and consultancy services relating to the development of welding processes; Design and development of welding systems and their components and control systems and customization relating thereto; Design and development of computer software for controlling and monitoring and documenting welding processes
