Refine Search AN/"Malwarebytes Inc"

	PAT. NO.	Title
1	11,232,193	Automated generation of a sandbox configuration for malware detection
2	11,184,328	Learning system for virtual private network orchestration, anonymization and quality of service
3	11,176,242	Intelligent pop-up blocker
4	11,157,614	Prevention of false positive detection of malware
5	11,132,443	Exception handlers in a sandbox environment for malware detection
6	11,126,731	Dynamic communication architecture for testing computer security application features
7	11,082,446	Malware infection prediction and prevention
8	11,068,592	Lookahead signature-based malware detection
9	10,992,703	Facet whitelisting in anomaly detection
10	10,970,396	Intelligent event collection for rolling back an endpoint state in response to malware
11	10,922,411	Intelligent event collection for cloud-based malware detection
12	10,860,720	Static anomaly-based detection of malware files
13	10,839,078	Parallel processing for malware detection
14	10,623,445	Endpoint agent for enterprise security system
15	10,511,634	Scalable cloud-based endpoint security system
16	10,496,821	Parallel processing for malware detection
17	10,257,232	Endpoint agent for enterprise security system
18	10,250,644	Detection and removal of unwanted applications
19	10,250,623	Generating analytical data from detection events of malicious objects
20	10,229,269	Detecting ransomware based on file comparisons
21	10,193,918	Behavior-based ransomware detection using decoy files
22	10,185,826	Parallel processing for malware detection
23	10,089,467	Static anomaly-based detection of malware files
24	10,032,025	Behavior-based ransomware detection
25	9,935,984	Scalable cloud-based endpoint security system
26	9,825,994	Detection and removal of unwanted applications
27	9,734,337	Behavior-based ransomware detection
