

KTI
THE TRANSPORTATION PEOPLE

Confidence

KTI is confident in our business. KTI is a private logistics firm that specializes in managing the shipment of products throughout the world. We are one of the fastest growing transportation companies in the United States. Every customer shipment - large or small - is treated with equal care and dedication. KTI will assess your needs, and find the best route, carrier, and price to meet your specific requirements. We have access to more than 15,000 contracted carriers throughout the United States and Canada. If any problems arise during shipping, we handle them directly, you don't. At KTI, our confidence in logistics allows you to focus on something more important: your business.

KTI

Reliability

KTI is a Reliable Partner. KTI has built a solid reputation for personalized service and consistent on-time delivery. Our focus is constant communication between customer and carrier, and the end result: a seamless movement of your product. Our personalized customer service, consistent on-time delivery, and prompt communication separate us from our competition. We are only as good as our last shipment. Our business depends on it and so does yours.

Teamwork

KTI knows its success is dependent on teamwork. It takes exceptional and ambitious employees all working together to be able to successfully coordinate, schedule, cover, and dispatch thousands of shipments a week. At KTI, we take great pride in the energy and excitement that all of our employees have in making sure your shipments are taken care of in a professional way. In the end, our growth and success are dependent on yours.
