

**CONSOLIDATED FINANCIAL SUMMARY**  
**FOR THE SECOND QUARTER ENDED SEPTEMBER 30, 2019**  
**(IFRS)**

October 30, 2019

Company Name: ANRITSU CORPORATION

Stock exchange listings: Tokyo

Securities code: 6754 URL: <https://www.anritsu.com>

Representative: Hirokazu Hamada ; President and Director

Inquiries: Akifumi Kubota ; Director, Executive Vice President, CFO

Tel : +81 46 296 6507

Quarterly statement filing date (as planned): November 13, 2019

Dividend payable date (as planned): December 4, 2019

Supplemental material of quarterly results: Yes

Convening briefing of quarterly results: Yes (for financial analysts and institutional investors)

(Millions of yen, round down)

## 1. Consolidated financial results of the second quarter ended September 30, 2019

(From April 1, 2019 to September 30, 2019)

## (1) Consolidated Operating Results

(Note) Percentage figures indicate change from the same quarter a year ago.

	Revenue		Operating profit (loss)		Profit (loss) before tax		Profit (loss)		Profit (loss) attributable to owners of parent		Total comprehensive income	
	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%
For the six months ended September, 2019	49,808	12.3	6,632	90.5	6,371	73.2	4,682	49.1	4,656	49.0	3,372	-23.0
September, 2018	44,335	9.0	3,482	507.3	3,678	669.2	3,141	-	3,125	-	4,380	264.3

	Basic earnings per share		Diluted earnings per share	
	Yen	Yen	Yen	Yen
For the six months ended September, 2019	33.89	33.88	33.88	33.88
September, 2018	22.75	22.74	22.74	22.74

## (2) Consolidated Financial Positions

	Total assets	Total equity	Equity attributable to owners of parent	Equity attributable to owners of parent to total assets ratio
	Millions of yen	Millions of yen	Millions of yen	%
For the six months ended September, 2019	129,926	87,204	87,060	67.0
For the year ended March, 2019	130,467	85,678	85,560	65.6

## 2. Dividends

	Annual dividend				
	First quarter	Second quarter	Third quarter	Fiscal year end	Total
For the year ended March, 2019	—	8.50	—	13.50	22.00
For the year ending March, 2020	—	11.00			
For the year ending March, 2020 (Forecast)			—	11.00	22.00

(Note) Correction of dividend forecast from the most recent dividend forecast: No

## 3. Consolidated Forecast for the year ending March 31, 2020 (From April 1, 2019 to March 31, 2020)

(Note) Percentage figures indicate change from the previous period.

	Revenue		Operating profit (loss)		Profit (loss) before tax		Profit (loss)		Profit (loss) attributable to owners of parent		Basic earnings per share
	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Yen
Annual	103,000	3.4	11,500	2.3	11,500	1.2	8,500	-5.5	8,500	-5.1	61.87

(Note) Correction of financial forecast from the most recent financial forecast: Yes

※ Others

(1) Material changes in subsidiaries during this period

(Changes in scope of consolidations resulting from change in subsidiaries) : None

Number of subsidiaries newly consolidated : -

Number of subsidiaries excluded from consolidation : -

(2) Changes in accounting policies and accounting estimates

1. Changes in accounting policies required by IFRS : Yes

2. Changes in accounting policies other than IFRS requirements : None

3. Changes in accounting estimates : None

(3) The number of issued shares

1. Number of issued shares at the period end (including treasury stock)

Q2FY2019 (Sep. 30, 2019)	138,234,294 shares	FY2018 (Mar. 31, 2019)	138,206,794 shares
--------------------------	--------------------	------------------------	--------------------

2. Total number of treasury stock at the period end

Q2FY2019 (Sep. 30, 2019)	830,118 shares	FY2018 (Mar. 31, 2019)	840,435 shares
--------------------------	----------------	------------------------	----------------

3. Average number of issued shares during the period (quarterly period-YTD)

Q2FY2019 (Sep. 30, 2019)	137,376,098 shares	Q2FY2018 (Sep. 30, 2018)	137,381,062 shares
--------------------------	--------------------	--------------------------	--------------------

This financial summary is not subject to audit by a certified public accountant or an audit corporation.

Notes for using forecasted information and others

•As the business forecast mentioned above are based on the recent information, actual results may vary substantially from projections above due to known or unknown risks, changes relating to uncertainties, and others. The reader should be aware that actual results may be materially different from any future results expressed herein due to various factors.

•With regard to notes for utilizing preconditions of outlook and business forecast, please refer to 1. Consolidated Financial Results (3) Outlook for the Fiscal Year Ending March 31, 2020 at page 6.

•Additional supplemental material related to the financial statements will be available at Anritsu's web site since the results briefing session to be held on October 31, 2019.

## 1. Consolidated Financial Results

### (1) Operating Results

#### 1) General Overview

	Six Months Ended September 30,		(Millions of yen)	
	2018	2019	Change	
Orders	47,909	53,632	5,723	11.9%
Backlog	24,289	25,279	989	4.1%
Revenue	44,335	49,808	5,473	12.3%
Operating profit (loss)	3,482	6,632	3,149	90.5%
Profit (loss) before tax	3,678	6,371	2,693	73.2%
Profit (loss)	3,141	4,682	1,541	49.1%
Profit (loss) attributable to owners of parent	3,125	4,656	1,530	49.0%

During the second-quarter of the fiscal year ending March 31, 2020, although US-China trade war becomes more serious, the global economy continued the moderate expansion primarily in advanced countries, and Japan's personal consumption remained strong buoyed by improvement in the employment situation. On the other hand, risks for politics and political measures in each country increased due to US policy changeover and UK Brexit.

In the field of information and communication, mobile broadband services are growing both in terms of quality and quantity, and the volume of mobile data transmission is increasing rapidly, which is compelling the network infrastructure. In order to solve these issues, 4G mobile communications system has evolved to become LTE (Long-Term Evolution) and LTE-Advanced, and then LTE-Advanced Pro (Gigabit LTE). In addition, specification development of the next-generation 5G communications system is proceeding in 3GPP. The standardization of 5G NSA-NR (Non-Standalone New Radio) finished in December, 2017 and the one of 5G SA-NR (Standalone New Radio) finished in June, 2018. All specifications of 5G main functions that are related to ultrahigh speed communication are set. Continuously among 3GPP, specification development of ultralow latency communications and multiple simultaneous connections for expansion of use case is under consideration and the standardization will be expected to be finished in 2020.

As a result, 5G services were launched in US, Korea and Europe, and the 5G commercialization schedules of operators in each country are making progress smoothly. In Japan, as the allocations of frequencies for the 5G communications were determined to carriers, preparation for the 5G commercialization in 2020 is moving forward.

Amid such environment, the Measurement Business Group has focused on solution development for the 5G investment demand as well as organizational infrastructure, and acquired early development demand of the 5G chipsets and devices.

In the field of PQA (Products Quality Assurance), automation investment on processed foods production lines is underway, and demand is growing steadily for contaminant inspection using X-rays and quality guarantee toward packaging. Amid such environment, the PQA Group has worked to reinforce the competitiveness of its solutions focused on X-rays, as well as enhance and expand its global sales structure.

As a result, orders increased 11.9 percent compared with the same period of the previous fiscal year to 53,632 million yen, and revenue increased 12.3 percent to 49,808 million yen. Operating profit increased 90.5 percent compared with the same period of the previous fiscal year to 6,632 million yen, profit before tax increased 73.2 percent to 6,371 million yen. Profit increased 49.1 percent compared with the same period of the previous fiscal year to 4,682 million yen, profit attributable to owners of parent increased 49.0 percent to 4,656 million yen.

## 2) Overview by Segment

### 1. Test and Measurement

	Six Months Ended September 30,		(Millions of yen)	
	2018	2019	Change	
Revenue	29,156	35,176	6,020	20.6%
Operating profit (loss)	2,543	5,907	3,364	132.2%

This segment develops, manufactures and sells measuring instruments and systems for a variety of communications applications, and service assurance, to telecom operators, manufacturers of related equipment, and maintenance and installation companies around the world.

During the second-quarter of the fiscal year ending March 31, 2020, development demands on 5G chipsets and devices expanded smoothly. Consequently, segment revenue increased 20.6 percent compared with the same period of the previous fiscal year to 35,176 million yen and operating profit increased 132.2 percent to 5,907 million yen.

### 2. Products Quality Assurance

	Six Months Ended September 30,		(Millions of yen)	
	2018	2019	Change	
Revenue	11,440	10,698	(741)	-6.5%
Operating profit (loss)	851	460	(391)	-46.0%

This segment develops, manufactures and sells production management and quality management systems, including precision, high-speed auto checkweighers, automatic combination weighers and metal detectors, for the food, pharmaceutical and cosmetics industries.

During the second-quarter of the fiscal year ending March 31, 2020, we are steadily acquiring capital investment demands for improvement, automation and labor-saving for the quality assurance processes in the food product market both in Japan and overseas. However, due to decrease of large investments etc. in overseas, revenue decreased compared with the same period of previous fiscal year. As a result, segment revenue decreased 6.5 percent compared with the same period of the previous fiscal year to 10,698 million yen, and operating profit decreased 46.0 percent to 460 million yen.

### 3. Others

	Six Months Ended September 30,		(Millions of yen)	
	2018	2019	Change	
Revenue	3,738	3,932	194	5.2%
Operating profit (loss)	435	661	225	51.9%

This segment comprises Information and Communications, Devices, Logistics, Welfare-related service, Leases on real estate, and others.

During the second-quarter of the fiscal year ending March 31, 2020, profit of device segment increased compared with the same period of previous fiscal year. As a result, segment revenue increased 5.2 percent compared with the same period of the previous fiscal year to 3,932 million yen, and operating profit increased 51.9 percent to 661 million yen.

## (2) Financial Position

### 1) Assets, Liabilities and Equity

			(Millions of yen)
	March 31, 2019	September 30, 2019	Change
Assets	130,467	129,926	(541)
Liabilities	44,789	42,722	(2,066)
Equity	85,678	87,204	1,525
<i>Interest-bearing debt</i> <i>(including lease liabilities)</i>	16,435	14,664	(1,770)

Assets, liabilities and equity at the end of the second-quarter were as follows.

#### 1. Assets

Assets decreased 541 million yen compared with the end of the previous fiscal year to 129,926 million yen. This was mainly due to decrease of trade and other receivables, while increase of inventories, and property, plant and equipment.

#### 2. Liabilities

Total liabilities decreased 2,066 million yen compared with the end of the previous fiscal year to 42,722 million yen. This was mainly due to decrease of bonds and borrowings. On the other hand, other financial liabilities increased due to the increase of lease liabilities by the adoption of IFRS16.

#### 3. Equity

Equity increased 1,525 million yen compared with the end of the previous fiscal year to 87,204 million yen. This was mainly due to increase of retained earnings, while decrease of other components of equity.

As a result, the equity attributable to owners of parent to total assets ratio was 67.0 percent (65.6 percent at the end of the previous fiscal year).

Interest-bearing debt was 14,664 million yen (16,435 million yen at the end of the previous fiscal year). The debt-to-equity ratio was 0.17 (0.19 at the end of the previous fiscal year). Interest-bearing debt, excluding lease liabilities, was 12,868 million yen (16,248 million yen at the end of the previous fiscal year). The debt-to-equity ratio, excluding lease liabilities, was 0.15 (0.19 at the end of the previous fiscal year).

In accordance with the adoption of IFRS16, the amount of lease liabilities increased at the beginning of this fiscal year. Under that influence, interest-bearing debt increased. However, repayment of long-term loans made interest-bearing debt and the debt-to-equity ratio decrease compared with the end of previous fiscal year.

(Notes)

*Equity attributable to owners of parent to total assets ratio: Equity attributable to owners of parent / Total asset*

*Debt-to-equity ratio: Interest-bearing debt / Equity attributable to owners of parent*

## 2) Summarized Cash Flows

	Six Months Ended September 30,		(Millions of yen)
	2018	2019	Change
Cash flows from operating activities	8,095	8,691	595
Cash flows from investing activities	(535)	(1,132)	(597)
Cash flows from financing activities	108	(5,675)	(5,784)
Cash and cash equivalents at end of period	43,584	46,145	2,560
<i>Free cash flow</i>	7,559	7,558	(1)

During the second-quarter of the fiscal year ending March 31, 2020, cash and cash equivalents (hereafter, "net cash") increased 1,047 million yen compared with the beginning of this fiscal year to 46,145 million yen.

Free cash flow, the sum of cash flows from operating activities and cash flows from investing activities, was positive 7,558 million yen (positive 7,559 million yen in the same period of the previous fiscal year).

Conditions and factors for each category of cash flow for the second-quarter period were as follows.

### 1. Cash Flows from Operating Activities

Net cash provided by operating activities was 8,691 million yen (in the same period of the previous fiscal year, operating activities provided net cash of 8,095 million yen). The cash increase was mainly due to reporting of profit before tax and decrease of trade and other receivables. Depreciation and amortization was 2,448 million yen (increase of 281 million yen compared with the same period of the previous fiscal year).

### 2. Cash Flows from Investing Activities

Net cash used in investing activities was 1,132 million yen (in the same period of the previous fiscal year, investing activities used net cash of 535 million yen). This was primarily due to acquisition of property, plant and equipment.

### 3. Cash Flows from Financing Activities

Net cash used in financing activities was 5,675 million yen (in the same period of the previous fiscal year, financing activities provided net cash of 108 million yen). This was mainly due to the repayment of long-term loan 3,500 million yen and cash dividends 1,854 million yen (in the same period of the previous fiscal year, cash dividends was 1,030 million yen).

### (3) Outlook for the Fiscal Year Ending March 31, 2020

The Anritsu Group has revised the performance forecasts announced on April 25, 2019, as stated on page 7.

In our Test and Measurement segment, demands of measuring instruments for development in 5G related mobile market are expanding continuously. We have revised the outlook for the fiscal year ending March 31, 2020 because, principally in Asia, demands for the 5G development investment exceed our initial forecast.

For the fiscal year ending March 31, 2020, Anritsu plans to pay dividends of 22.00 yen per share as initially scheduled.

#### Impact of Typhoon 19 (Hagibis)

Typhoon 19 (Hagibis) crossed eastern Japan from the night of Saturday, October 12th, 2019 to the early morning hours of Sunday the 13th. We send our deepest condolences to all the victims and all the people who are affected by the typhoon.

A river flood caused by the typhoon 19 (Hagibis) inundated the first factory of Tohoku Anritsu Co., Ltd., which is our consolidated subsidiary located in Koriyama, Fukushima prefecture. We cooperated in local relief efforts, and worked to recover the factory's production readiness with priority to the safety of our employees and their families. As a result, our shipments have been resumed.

The disaster recovery expense caused by the typhoon 19 (Hagibis) is under close examination. If it is determined to revise the outlook for the fiscal year ending March 31, 2020, we will announce the revised outlook immediately.

Revised consolidated forecast for the fiscal year ending March 31, 2020 (From April 1, 2019 to March 31, 2020)

**(5) Notes to the Condensed Quarterly Consolidated Financial Statements****(Notes regarding Going Concern)**

None

**(Changes in Accounting Policies)**

Significant accounting policies that the Group adopted in the condensed quarterly consolidated financial statements under review are the same as those that were adopted in the consolidated financial statements for the fiscal year ended March 31, 2019 except the followings.

Income tax expenses for the second-quarter of the fiscal year ending March 31, 2020 were determined using the estimated average annual effective income tax rate.

The Anritsu Group has adopted the following IFRS from the first-quarter of the fiscal year ending March 31, 2020.

Standard	Title	Subject of new standards/amendment
IFRS 16	Leases	Amendment to the accounting treatment for leases

Under IFRS 16, whether or not a contract is a lease contract or a contract containing a lease is determined at its inception, based on its substance. If the contract substantially involves transfer of the right to control the use of an identified asset for a certain period of time in exchange for consideration, such contract is determined to constitute a lease contract or a contract containing a lease.

At the inception of a lease, lease liability and right-of-use asset are recognized unless it is classified as a short-term lease or a lease of a low-value asset. In the case of a short-term lease or a lease of a low-value asset, lease payments are recognized as an expense on a straight-line basis over the lease term, based on the practical expedients allowed under IFRS 16.

A lease liability is measured at its present value as calculated by discounting the lease payments yet to be made as at the inception, using the interest rate implicit in the lease. If the interest rate implicit in the lease cannot easily be determined, a lessee's incremental borrowing rate of interest may be used for this purpose. Subsequent to the inception date of the lease, the lease liability may be increased or decreased to reflect the interest expenses associated with the lease liability as well as the lease payments that have been made.

A right-of-use asset is measured initially with the initially measured amount of the lease liability at the inception, adjusted by the initial direct costs, etc., and added by the costs associated with the obligations to restore the leased asset required under the lease contract, etc. Subsequent to the inception date of the lease, however, the right-of-use asset is measured by using a cost model at the acquisition cost less accumulated depreciation as well as accumulated impairment losses. The right-of-use asset is depreciated on a straight-line basis over the useful life or lease term whichever is shorter, unless it is reasonably certain that the Anritsu Group will obtain ownership of the lease asset at the termination of the lease term. The lease term includes the applicable periods of the extension and termination options, insofar as such options are to be exercised with reasonable certainty.

Following the adoption of IFRS 16, the Anritsu Group has newly recognized a right-of-use asset and lease liability for the leases classified as operating leases under IAS 17 – Leases. As for the leases classified as finance leases under IAS 17, book values recognized pursuant to IAS 17 have been directly quoted in general, while for some of such leases deemed to constitute leases of low-value assets, the accounting method has been changed whereby recognition of the right-of-use asset and lease liability has been discontinued based on the practical expedients, and lease payments are now recognized as an expense on a straight-line basis over the lease term.

Lease payments of the operating lease recognized as expenses under IAS 17 are allocated into repayment of financial expense and that of the lease liability according to the interest method, while the financial expenses are recognized in the Condensed Quarterly Consolidated Statement of Profit or Loss and Other Comprehensive Income. The amount of repayment of the lease liability for the operating lease was recorded as a negative-value item in cash flows from (used in) operating activities in the Condensed Quarterly Consolidated Statement of Cash Flows, which has been reclassified as a negative-value item in cash flows from (used in) financing activities.

In adopting IFRS 16, the Anritsu Group implemented retroactive adoption based on the transitional measures, whereby cumulative effects of the commencement of adoption were recognized as an adjustment to retained earnings at the beginning of the fiscal year ending March 31, 2020, while whether a lease is contained in contracts in force at the adoption of IFRS 16 was determined by following the decisions made based on IAS 17 – Leases and IFRIC 4 “Determining Whether an Arrangement Contains a Lease”. Meanwhile, the following practical expedients have been adopted.

- Apply a single discount rate to a portfolio of leases with reasonably similar characteristics.
- Rely on its assessment of whether leases are onerous applying IAS 37 Provisions, Contingent Liabilities and Contingent Assets immediately before the date of initial application as an alternative to performing an impairment review.
- For the leases previously classified as operating leases in the past, their initial direct costs have been excluded from the measurement of the right-of-use asset at the date of initial application.

As a result of the aforementioned, the right-of-use asset of 1,705 million yen and the lease liability of 1,758 million yen have been additionally recognized on the inception date as property, plant and equipment and other financial liabilities, respectively, in the Condensed Quarterly Consolidated Statement of Financial Position. Also 45 million yen decrease has been recognized in retained earnings. This has no significant impact on the Condensed Quarterly Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Reconciliation between non-cancellable operating lease contracts disclosed at the end of the previous fiscal year based on the adoption of IAS 17, and the lease liability recognized in the Condensed Quarterly Consolidated Statement of Financial Position on the inception date is as follows.

(Millions of yen)

	Amount
Non-cancelable operating lease contract, disclosed as of March 31, 2019	1,139
Non-cancelable operating lease contract (after discount), disclosed as of March 31, 2019 (Notes 1)	657
Finance lease liabilities (as of March 31, 2019)	186
Reported amount for cancelable operating lease contract	1,104
Low value leases, recognized as expenses under fixed amount method	(3)
Lease liabilities as of April 1, 2019	1,945

(Notes 1) : Value of non-cancelable operating lease contract (after discount) disclosed as of March 31, 2019 is discounted value excluded non-lease component.

(Notes 2) : Weighted average of lessees' incremental borrowing rates applicable to the lease liability recognized in the Condensed Quarterly Consolidated Statement of Financial Position on the inception date is 2.8%.

## (Segment Information)

### 1. Outline of reportable segment

The reportable segments of the Anritsu group are business segments which are classified based on products and services. Each business segment operates its business activities with a comprehensive strategic business plans for domestic and overseas. The board of directors meeting periodically makes decision of allocation of operating resources and evaluates business performance based on segment financial information. The Anritsu group's reportable segments are composed of "Test and Measurement" and "PQA (Products Quality Assurance)".

Main Products and services by segment are as follows;

Test and Measurement	Measuring instruments for Digital communications and IP network, Optical communications equipment, Mobile communications equipment, RF / microwave and millimeter wave communications equipment / systems, Service assurance
PQA	Checkweighers, Automatic combination weighers, Inspection equipment, Comprehensive production management system

### 2. Revenue and profit (loss) by reportable segment

Reportable segment information of the Anritsu Group is included below.

Inter segment revenue is measured based on market price.

Six months ended September 30, 2018 (From April 1, 2018 to September 30, 2018)

(\* 1) Capitalized development cost booked as intangible asset is not included.

(\* 2) Amortization of capitalized development cost booked as intangible asset is not included.

(\* 3) R&D expenses are amounts of R&D investment including capitalized development cost.

Thus, these amounts do not agree the R&D expense booked on the consolidated statement of profit or loss and other comprehensive income.

(\* 4) Capital expenditures and Depreciation for the year ending March 31, 2020 do not include the impact of the application of IFRS 16.
