Sabadell Information Systems Limited

Strategic Report

for the Year Ended 31 December 2022

The directors present their strategic report of Sabadell Information Systems Limited (the "Company" or SABIS UK) for the year ended 31 December 2022.

Company law requires the directors to prepare financial statements for each financial period. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

The company is limited by 10,600,000 ordinary shares of £1 each, of which 300,000 ordinary shares were issued on incorporation.

SABIS UK strategy for mid/short term will be to continue maintaining its commitments under the OSA contract (IT Outsourcing Service Agreement), to offer TSB an updated technology platform that meets its needs.

Principal activities and business review

The Company is a wholly owned subsidiary of Sabadell Digital, S.A.U. (formerly Sabadell Information Systems, S.A.U.), a company registered in Spain ("the parent company"). The principal activity is to maintain the IT platform "Proteo4UK" and run the activity on it for TSB Bank plc ("TSB").

SABIS UK Main Activities/Projects 2022:

- **Licence Management:** this is the largest and most relevant activity. SABIS UK has the ownership of part of the platform ("Proteo4UK") that is used by TSB, therefore SABIS UK invoices TSB for the use. The value of the licence will be invoiced to TSB during the useful economic life of the platform SABIS UK.
- **Change the Bank:** this activity includes the Proteo4UK IT platform evolution and support according to TSB necessities. This activity is supported by UK 3rd party service suppliers.
- **Run the Bank:** this activity included all the services related to the technical and infrastructure maintenance of the platform. This activity is supported by UK 3rd party service suppliers.

Once the Dawn project has been completed, no additional contract novation from SABIS UK to TSB is expected. Therefore, the level of activity of SABIS UK for 2023 is expected to be similar to that of 2022.

The Company intends to retain the IT Asset and to keep it updated to continue providing services to TSB during the contract period.

The Company made a profit of £148,000 (2021: loss of £58,000) during the financial period. Dividends of £nil (2021: £nil) were paid in the period. The Directors do not recommend the payment of a dividend and propose that the profits for the year ended 31 December 2022 be transferred to reserves.

During the year, total assets decreased from £51,755,000 to £29,490,000 due to decrease of the activity and therefore the level of liquidity necessary to comply with HQLA's requirements.

Sabadell Information Systems Limited

Strategic Report

for the Year Ended 31 December 2022

Principal risks and uncertainties

Over the course of 2022 UK economy emerges from the impact of COVID-19 and global markets have been impacted by increased energy costs and the war in Ukraine. These factors have contributed to rates of inflation substantially above Bank of England targets and a series of increases in interest rates to levels not seen for 14 years. It is expected that high inflation and interest rates will continue to contribute to pressures on costs of living throughout 2023.

The main purpose of the Company is to run and maintain the IT platform for TSB. Performance of the service and cost control are the main risks for the company. These risks are managed by sharing with TSB, on a monthly basis, information regarding the costs status and the platform service levels.

The four principal risk categories are shown below.

Regulatory risk

The company is required to maintain liquidity and capital ratio levels as established in the OSA contract, and at year-end the company complies with the established levels. SABIS UK submits a ratio report to TSB on a quarterly basis to ensure compliance.

Credit risk

The company's primary exposure to credit risk is in relation to the balances it is owed by other group companies (namely TSB). The company manages its credit risk by seeking settlement of intercompany receivables on a regular basis.

Market risk

The company's market risk exposure is to interest rate risk and valuation associated with its holding in UK gilts. The risk is monitored on an ongoing basis by the group treasury team and is considered low given the nature of the instruments in which the company invests.

Operational risk

The risk of loss, damage or disruption arising from inadequate or failed internal technological processes and systems. TSB technological processes and systems handled by SABIS are managed following the same principles and parameters than for the parent company and are aligned with Operational Risk Guides and ECB Guidelines regarding ICT Risk Management. The principles and parameters are based in managing risks all along its lifecycle, in order to have it properly aligned with the risk appetite: definition of risk framework, risk identification, assessment of the impact and definition of controls to mitigate them and reporting to management bodies.

Financial key performance indicators

The directors maintain close control of the business using the operating margin as the key financial indicator (10,5% for 2022 and 3,4% for 2021). The increase is due to the fact that the main activity has been the licence fee in 2022.

Sabadell Information Systems Limited

Strategic Report

for the Year Ended 31 December 2022

Statement by the Directors in performance of their statutory duties in accordance with s172(1) Companies Act 2006

In overseeing delivery of SABIS UK's purpose and strategy, SABIS UK's directors are always mindful of their duties under the Companies Act 2006, including as set out in section 172. The Board recognises that SABIS UK's long-term success is only possible through engagement with, and having regard to, the interests of key stakeholders.

SABIS UK's governance framework seeks to ensure that the Board appropriately considers stakeholders in decision-making. The Board monitors and challenges progress in the performance of the business through its review of the level of achievement of SABIS UK's Primary Corporate Objectives, monitoring performance against risk appetite and reviewing customer management information that measures the execution of customer conduct strategies. These metrics, together with a wider dashboard of management information, are reviewed and discussed.

Customers

The Board monitors customer experience through regular, formal meetings with the Customer (TSB, which is SABIS UK sole customer). These meetings cover all the key aspects of the relationship between SABIS UK and TSB, including strategic, service and finance aspects. Through these meetings, the Board has an accurate view of the customer experience and can identify potential improvement areas and the related actions to be taken. These meetings include: Service Executive Committee (SEC), in which, on a monthly basis, Directors from SABIS UK and TSB discuss the service level achieved in the previous month and analyse any potential deviations from SLA and remediation actions to be taken. In the last year, no major deviations have been occurred, showing the solid service level being provided. Progress of key projects being delivered is also discussed, so that Directors can agree any remediation action required. No major remediations have been required in the last year. Finally, there is a Financial Management Forum (FMF), detailed breakdown of the cost of service provided is shared between SABIS UK and TSB, in order to identify any potential deviation from forecast and approve or reject risks (i.e. additional costs) or Opportunities (i.e. cost reductions) before being actually applied in the budget, ensuring full alignment between the parties in terms of costs incurred.

Businesses

SABIS UK believes that establishing a close relationship with suppliers (including a clear accountability framework) is a pre-requisite for resilient customer services. The Board approves the outsourcing strategy annually, together with any changes to the boundaries of outsourced critical services.

Sabadell Information Systems Limited

Directors' Report

for the Year Ended 31 December 2022

The directors present their Annual Report on the affairs of the Company and the financial statements for the year ended 31 December 2022.

Directors of the company

The directors, who held office during the year and up to the date of approval of the financial statements, were as follows:

Neil Henry Charles Farren

Francesc Huguet Ballester

Enrique Solbes Gallego (resigned 25 March 2022)

Policy on payment to creditors

The Company's policy is to agree terms of payment with suppliers and these normally provide for payment within 30 days after the invoice date, except where other arrangements have been negotiated. It is the policy of the Company to abide by the agreed terms of the payment, provided the supplier performs according to the terms of the contract.

Financial risk management

The Company's directors are required to follow the requirements of the Banco Sabadell S.A. Group risk management policies, which include specific guidelines on the management of liquidity risk, credit risk and interest rate risks and advises on the use of non-complex financial instruments to manage them. Details of principal risks can be found in the Strategic Report. Banco Sabadell S.A. Group risk management policies can be found in the financial statements of Banco Sabadell S.A. (note 2).

There was no third party indemnity provision, for the benefit of any director during the year.

Political donations

The company has not made any political donations or incurred any political expenditure in the year (2021: nil).

Future developments

The development of the Company is framed in the context of the IT strategy of our client TSB, aligned with the corporate IT strategy of the Banco Sabadell Group.

Going concern

The Company's business activities, together with the factors likely to affect its future development and position, are set out in the strategic report.

The financial statements have been prepared on a going concern basis, which the directors consider to be appropriate for the following reasons. During the period, in addition to its operating activities, the Company was funded through its capital and loan facility obtained from a group undertaking entity.

The directors have performed a going concern assessment which indicates that, in a possible downside scenario, the company will require additional funds, through funding from its ultimate parent company, Banco de Sabadell S.A., to meet its liabilities as they fall due for at least 12 months from the date of approval of these financial statements.

Sabadell Information Systems Limited

Directors' Report

for the Year Ended 31 December 2022

Going concern (continued)

The Company is dependent on Banco de Sabadell S.A continuing to provide financial support through the existing loan facility. The principal activity, which is still being provided, is maintaining the IT platform "Proteo4UK" and running the activity on it for TSB Bank plc ("TSB"), so the Company continues trading.

The Directors have considered that Banco de Sabadell, S.A.. (the Group parent entity) has issued a letter of support stating that the parent intends, and has the ability, to take actions necessary to continue to provide support to the Company that it continues to run as a going concern for a period of 12 months from the date these financial statements are authorised for issue.

The PRA supervisory statement SS4/21 requires banks to guarantee the operational continuity of critical services. Banco de Sabadell, S.A. is required to ensure that the Company has access to liquidity levels equivalent to 6 months of fixed operating costs related to these services. Consequently, the directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Disclosure of information to the auditor

The directors who held office at the date of approval of this director's report confirm that:

- so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware; and
- each director has taken all the steps that he/she ought to have taken as a director to make himself/herself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Re-appointment of auditor

Pursuant to Section 485 of the Companies Act 2006, KPMG LLP will be deemed to be reappointed and will continue in office.

Approved by the Board on ^{16 June 2023} and signed on its behalf by:

Sabadell Information Systems Limited

Statement of Directors' Responsibilities

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 Reduced Disclosure Framework.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Sabadell Information Systems Limited

Independent Auditor's Report to the Members of Sabadell Information Systems Limited

Opinion

We have audited the financial statements of Sabadell Information Systems Limited ("the Company") for the year ended 31 December 2022, which comprise the Statement of Profit and Loss and Other Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity, and related notes, including the accounting policies in note 2.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 101 *Reduced Disclosure Framework*; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

In our evaluation of the directors' conclusions, we considered the inherent risks to the Company's business model and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period.

Our conclusions based on this work:

- we consider that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate;
- we have not identified, and concur with the directors' assessment that there is not, a material uncertainty related to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for the going concern period.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the above conclusions are not a guarantee that the Company will continue in operation.

Sabadell Information Systems Limited

Independent Auditor's Report to the Members of Sabadell Information Systems Limited

Fraud and breaches of laws and regulations – ability to detect

Identifying and responding to risks of material misstatement due to fraud

To identify risks of material misstatement due to fraud (“fraud risks”) we assessed events or conditions that could indicate an incentive or pressure to commit fraud or provide an opportunity to commit fraud. Our risk assessment procedures included:

- Enquiring of directors and management and inspection of policy documentation as to the Company’s high-level policies and procedures to prevent and detect fraud, including the internal audit function, as well as whether they have knowledge of any actual, suspected or alleged fraud.
- Reading Board minutes.
- Using analytical procedures to identify any unusual or unexpected relationships.

We communicated identified fraud risks throughout the audit team and remained alert to any indications of fraud throughout the audit.

As required by auditing standards, we perform procedures to address the risk of management override of controls, in particular the risk that management may be in a position to make inappropriate accounting entries. On this audit we do not believe there is a fraud risk related to revenue recognition because there is limited complexity in the calculation and recognise of revenue.

We did not identify any additional fraud risks.

We performed procedures including:

- Identifying journal entries and other adjustments to test based on risk criteria and comparing the identified entries to supporting documentation. These included entries recorded with insufficient business rationale and entries posted at times considered to be outside of the normal course of business.
- Assessing whether the judgements made in making accounting estimates are indicative of a potential bias.

Identifying and responding to risks of material misstatement due to non-compliance with laws and regulations

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, and through discussion with the directors and other management (as required by auditing standards), and from inspection of the Company’s regulatory and legal correspondence and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations. We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably.

Firstly, the Company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related companies legislation), distributable profits legislation and taxation legislation, and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Sabadell Information Systems Limited

Independent Auditor's Report to the Members of Sabadell Information Systems Limited

Secondly, the Company is subject to many other laws and regulations where the consequences of non-compliance could have a material effect on amounts or disclosures in the financial statements, for instance through the imposition of fines or litigation. We identified the following areas as those most likely to have such an effect: data protection laws, anti-bribery, employment law, regulatory capital and liquidity, and certain aspects of company legislation recognising the nature of the Company's activities and its legal form. Auditing standards limit the required audit procedures to identify non-compliance with these laws and regulations to enquiry of the directors and other management and inspection of regulatory and legal correspondence, if any. Therefore if a breach of operational regulations is not disclosed to us or evident from relevant correspondence, an audit will not detect that breach.

Context of the ability of the audit to detect fraud or breaches of law or regulation

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it.

In addition, as with any audit, there remained a higher risk of non-detection of fraud, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Our audit procedures are designed to detect material misstatement. We are not responsible for preventing non-compliance or fraud and cannot be expected to detect non-compliance with all laws and regulations.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Sabadell Information Systems Limited

Independent Auditor's Report to the Members of Sabadell Information Systems Limited

Directors' responsibilities

As explained more fully in their statement set out on page 7, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

1 General information

The Company (registered number 10286811) is a private company limited by shares, incorporated and domiciled in England and Wales.

The address of its registered office is:

120 Pall Mall
London
SW1Y 5EA
United Kingdom

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance and basis of preparation

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS101") and are prepared under historical cost convention as modified by the recognition of certain financial instruments, including assets at fair value through other comprehensive income.

In preparing these financial statements, the Company applies the recognition, measurements and disclosure requirements of international accounting standards in conformity with requirements of the Companies Act 2006 ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

These financial statements are presented in Pounds Sterling (£), which is both the functional and reporting currency of the Company.

Summary of disclosure exemptions

The following exemptions from the requirements of IFRS have been applied in the preparation of these financial statements, in accordance with FRS 101:

- IAS 1 Presentation of financial statements Paragraph 10(d) A statement of the cash flows for the period, IAS 7 Statement of cash flows in respect to Cash Flow Statement and related notes;
- IAS 1 Presentation of financial statements Paragraph 134-136 disclosures in respect of capital management;
- IAS 8 Accounting policies, changes in accounting estimates and errors Paragraph 30-31 in respect of the effects of new but not yet effective IFRSs;
- IAS 24 Related party disclosures in respect of transitions with wholly owned subsidiaries and the compensation of Key Management Personnel.

As the consolidated financial statements of Banco de Sabadell, S.A. include the equivalent disclosures, the Company has also taken the exemptions under FRS 101 available in respect of the following disclosures:

Sabadell Information Systems Limited

Notes to the Financial Statements

for the Year Ended 31 December 2022

2 Accounting policies (continued)

- Disclosures required by IFRS 13 Fair Value Measurement and the disclosures required by IFRS 7 Financial Instrument Disclosures.

The financial statements have been prepared on the going concern basis under the historical cost convention and in accordance with the Companies Act 2006 and applicable UK accounting standards.

Going concern

The Company's business activities, together with the factors likely to affect its future development and position, are set out in the strategic report.

The financial statements have been prepared on a going concern basis, which the directors consider to be appropriate for the following reasons. During the period, in addition to its operating activities, the Company was funded through its capital and loan facility obtained from a group undertaking entity.

The directors have performed a going concern assessment which indicates that, in a possible downside scenario, the company will require additional funds, through funding from its ultimate parent company, Banco de Sabadell S.A., to meet its liabilities as they fall due for at least 12 months from the date of approval of these financial statements.

The Company is dependent on Banco de Sabadell S.A continuing to provide financial support through the existing loan facility. The principal activity, which is still being provided, is maintaining the IT platform "Proteo4UK" and running the activity on it for TSB Bank plc ("TSB"), so the Company continues trading.

The Directors have considered that Banco de Sabadell, S.A.. (the Group parent entity) has issued a letter of support stating that the parent intends, and has the ability, to take actions necessary to continue to provide support to the Company that it continues to run as a going concern for a period of 12 months from the date these financial statements are authorised for issue.

The PRA supervisory statement SS4/21 requires banks to guarantee the operational continuity of critical services. Banco de Sabadell, S.A. is required to ensure that the Company has access to liquidity levels equivalent to 6 months of fixed operating costs related to these services. Consequently, the directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Sabadell Information Systems Limited

Notes to the Financial Statements

for the Year Ended 31 December 2022

2 Accounting policies (continued)

Contract assets

Contract assets represent the gross unbilled amount for work performed to date. They are measured at cost (see the turnover accounting policy) less a provision for foreseeable losses and less progress billings. Variations are included in contract revenue when they are reliably measured and it is probable that the customer will approve the variation itself and the revenue arising from the variation. Claims are included in contract revenue only when they are reliably measurable and negotiations have reached an advanced stage such that it is probable that the customer will accept the claim. Cost includes all expenditure related directly to specific projects and an allocation of fixed and variable overheads incurred in the Company's contract activities based on normal operating capacity.

Contract assets are presented as part of debtors and other assets in the statement of financial position. If payments received from customers exceed the income recognised, then the difference is presented as accruals and deferred income in the statement of financial position.

Finance income and costs policy

Interest payable and similar expenses include interest payable, recognised in the profit and loss using the effective interest method. Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial time to be prepared for use, are capitalised as part of the cost of that asset.

Interest receivable and similar income is recognised in the profit and loss as it accrues, using the effective interest method.

Tax

Corporation tax which is payable or receivable in respect of taxable profits or losses is recognised as a current tax expense or credit in the period in which the profits or losses arise.

Deferred tax is provided in full on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax is determined using tax rates that have been enacted or substantively enacted by the balance sheet date that are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised where it is probable that the future taxable profit will be available against which the temporary differences can be utilised.

Current and deferred tax assets and liabilities are offset where there is both a legal right of offset and the intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Sabadell Information Systems Limited

Notes to the Financial Statements

for the Year Ended 31 December 2022

2 Accounting policies (continued)

Intangible assets

Intangible assets that are constructed or purchased from third parties by the Company, such as IT platforms, are initially recognised at cost and subsequently stated at cost less accumulated amortisation and less accumulated impairment losses.

IT platforms are amortised from the date they are available for use between 3 and 15 year period. Amortisation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of intangible assets.

Financial instruments

i. Recognition and initial measurement

Trade debtors and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the company becomes a party to the contractual provisions of the instrument.

A financial asset (unless it is a trade debtor without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade debtor without a significant financing component is initially measured at the transaction price.

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

2 Accounting policies (continued)

II. Classification and subsequent measurement

Financial assets

a) Classification

On initial recognition, a financial asset is classified as measured at:

- amortised cost;
- FVOCI - debt investment;
- FVOCI - equity investment; or
- FVTPL.

A financial asset is measured at amortised cost if it meets both of the following conditions:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrecoverably elect to present subsequent changes in the investments' fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Sabadell Information Systems Limited

Notes to the Financial Statements

for the Year Ended 31 December 2022

2 Accounting policies (continued)

b) Subsequent measurement and gains and losses

Financial assets at FVTPL - these assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. This amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit and loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt investments at FVOCI - These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit and loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI - These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial liabilities and equity

Financial instruments issued by the Company are treated as equity only to the extent that they meet the following two conditions:

- they include no contractual obligations upon the Company to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company; and
- where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments or is a derivative that will be settled by the Company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as financial liabilities. Where the instrument so classified takes legal form of the Company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

2 Accounting policies (continued)

Impairment

The Company recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost, debt investments measured at FVOCI and contract assets (as defined in IFRS 15).

The Company measures loss allowances at an amount equal to lifetime ECL, except for other debt securities and bank balances for which credit risk (i.e., the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition which are measured as 12-month ECL.

Loss allowances for trade debtors and contract assets are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial assets.

Credit-impaired financial assets

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Write-offs

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery.

Sabadell Information Systems Limited

Notes to the Financial Statements

for the Year Ended 31 December 2022

2 Accounting policies (continued)

Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For intangible assets that have indefinite useful lives or that are not yet available for use, the recoverable amount is estimated each year at the same time.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash flows of other assets or groups of assets (the "cash-generating unit").

In respect of other assets, where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

Turnover

Turnover represents the total amount of consideration due in ordinary course of business for the rights derived from the OSA contract (IT Outsourcing Service Agreement), and includes VAT (where applicable) and trade discounts. The total turnover of the Company for the year has been derived from its principal activity undertaken in the United Kingdom.

Turnover comprises of goods and services provided, which are recognised in turnover when the risk and rewards have been transferred over to the customer.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Provision for liabilities

Provisions are recognised in respect of present obligations arising from past events where it is probable that outflows of resources will be required to settle the obligations and they can be reliably estimated.

Contingent liabilities are possible obligations whose existence depends on the outcome of uncertain future events or those present obligations where the outflows of resources are uncertain or cannot be measured reliably. Contingent liabilities are not recognised in the financial statements but are disclosed unless they are remote.

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

3 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimate and associated assumptions are based on historical experience and other factors that are relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The main estimates made refer to:

- Useful lives of depreciable assets (Note 2 - Intangible assets)
- Recoverability of intangible assets (Note 2 - Write-offs)
- Losses due to impairment of certain financial assets (Note 2 - Impairment of non-financial assets and deferred tax assets)
- Fair value of certain financial assets (Note 2 - Financial instruments)

4 Turnover

The analysis of the Company's turnover for the year from continuing operations is as follows:

	2022 £ 000	2021 £ 000
Rendering of IT services to TSB	3,047	4,654
Other revenue	-	4
	<u>3,047</u>	<u>4,658</u>

All turnover is generated in the United Kingdom and relates to services provided.

The reduction in revenue is due to decrease the Run and Change the Bank activities.

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

5 Cost of sales

	2022 £ 000	2021 £ 000
Third party invoices	-	1,792
Amortisation of IT platform	2,577	2,582
	<u>2,577</u>	<u>4,374</u>

6 Administrative expenses

The average number of persons employed by the Company (including directors) during the year is nil (2021: nil).

The aggregate payroll costs (including directors' remuneration) were as follows:

	2022 £ 000	2021 £ 000
Social security costs	<u>-</u>	<u>1</u>

From February 2020, the Company had no employees.

Other administrative expenses are:

	2022 £ 000	2021 £ 000
Audit fee	93	64
Loss on disposal of intangible assets	-	13
Other	87	54
	<u>180</u>	<u>131</u>
Total administrative cost (including staff cost)	<u>180</u>	<u>132</u>

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

7 Auditor's remuneration

	2022 £ 000	2021 £ 000
Fees for the audit of the Company	78	53

Amounts due to the auditor for non-audit related services are £Nil (2021: £Nil).

All amount disclosed above are stated exclusive of VAT.

8 Directors' remuneration

The total value of remuneration received by the Directors in respect of their services to the Company is nil (2021: nil).

9 Interest receivable and similar income

	2022 £ 000	2021 £ 000
Interest income on bank deposits	139	-
Interest income on financial assets	63	392
	202	392

10 Interest payable and similar expenses

	Note	2022 £ 000	2021 £ 000
Interest on amounts owed to group undertakings		279	402
Interest on obligations and bonds	13	1	277
Finance cost on maturity of bonds		36	-
		316	679

The reduction in interest payable is due to the decrease in the outstanding balance of the credit policy and the maturity of the bonds acquired at the beginning of the OSA Contract.

Sabadell Information Systems Limited

Notes to the Financial Statements

for the Year Ended 31 December 2022

11 Income tax

Tax credited in the statement of profit and loss and other comprehensive income

	2022 £ 000	2021 £ 000
Current taxation		
UK corporation tax	33	-
Adjustments in respect of prior years	17	(28)
	<u>50</u>	<u>(28)</u>
Deferred taxation		
Arising from origination of temporary differences	-	(26)
Adjustments in respect of prior years	(22)	13
Arising from changes in tax rates and laws	-	(36)
Total deferred taxation	<u>(22)</u>	<u>(49)</u>
Total tax charge/(credit)	<u>28</u>	<u>(77)</u>

The tax on (loss)/profit for the year is different to the standard rate of corporation tax in the UK (2021 - different to the standard rate of corporation tax in the UK) of 19% (2021 - 19%).

The differences are reconciled below:

	2022 £ 000	2021 £ 000
(Profit)/loss before tax	<u>(176)</u>	<u>135</u>
Tax on (loss)/profit at standard UK tax rate of 19% (2021: 19%)	33	(26)
Adjustments in respect of prior years	(5)	(15)
Deferred tax credit relating to changes in tax rates or laws	-	(36)
Total tax charge/(credit)	<u>28</u>	<u>(77)</u>

	2022 £ 000	2021 £ 000
Amounts recognised in other comprehensive income		
Deferred tax	(5)	(28)

Sabadell Information Systems Limited

Notes to the Financial Statements for the Year Ended 31 December 2022

11 Income tax (continued)

The UK's main corporation tax rate is set to increase from 19% to 25%, with effect from 1 April 2023. These changes were substantively enacted in 2021 and hence were reflected in the measurement of deferred taxes at 31 December 2021. No further changes in the main UK corporation tax rate were substantively enacted in 2022.

Deferred tax assets are only recognised to the extent they are considered more likely than not to be recoverable based on existing tax laws and forecasts of future taxable profits.

12 Intangible assets

	<i>Work in progress £ 000</i>	<i>IT platform £ 000</i>	<i>Total £ 000</i>
Cost			
At 1 January 2022	125	34,076	34,201
Additions	2,057	-	2,057
Transfers	(245)	245	-
At 31 December 2022	<u>1,937</u>	<u>34,321</u>	<u>36,258</u>
Accumulated amortisation			
At 1 January 2022	-	7,829	7,829
Amortisation charge	-	2,577	2,577
At 31 December 2022	<u>-</u>	<u>10,406</u>	<u>10,406</u>
Carrying amount			
At 31 December 2022	<u>1,937</u>	<u>23,915</u>	<u>25,852</u>
At 31 December 2021	<u>125</u>	<u>26,247</u>	<u>26,372</u>

The average remaining amortisation period of the intangible asset is 7.2 years.
