Principal risks and uncertainties

All assets and liabilities are intra-group. As a result risk is managed on a consolidated basis as part of the overall Smiths Group plc's risk management process.

The directors of Smiths Group plc manage risks at a Group level, rather than at an individual business unit level. For this reason, the Company's directors believe that a disclosure of the Company's risk profile would not be appropriate for an understanding of the activities of the Company. See the Smiths Group plc Annual report, and Financial Statements pages 69 to 74 for a description of the Smiths Group plc risk management and key risks.

Key performance indicators

The directors of Smiths Group plc manage the Group's operations on a consolidated basis using divisional KPIs. For this reason, the Company's directors believe that analysis using key performance indicators for the Company is not necessary or appropriate. The development, performance and position of Smiths Group plc is discussed in the Strategic Report of the Group's Annual Report and Financial Statements which does not form part of this report.

1. Accounting policies (continued)

1.3 Going Concern

The Company has net current assets of £214,792,000 as at 31 July 2023 (2022: £303,689,000) and a profit after taxation for the year then ended of £16,482,000 (2022: £47,877,000).

The Director's review of the financial accounts indicate that the Company has sufficient financial resources to meet its financial obligations as they fall due during the period of assessment, considered to be twelve months from the signing date of these financial statements.

1.4 Foreign currency translation

The following tables summarise the impacts of adopting new reporting standards on the Company's financial statements.

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Nonmonetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit and loss account and other comprehensive income.

All foreign exchange gains and losses are presented in the profit and loss account and other comprehensive income within 'Other finance (expenses)/income'.

1.5 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

1.6 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

1.7 Financial instruments

The Company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instruments transactions are explained below:

SMITHS INTERCONNECT GROUP LIMITED

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 JULY 2023**

1. Accounting policies (continued)

1.7 Financial instruments (continued)

Financial assets and financial liabilities are initially measured at fair value.

Financial assets

All recognised financial assets are subsequently measured in their entirety at either fair value or amortised cost, depending on the classification of the financial assets.

Impairment of financial assets

The Company always recognises lifetime ECL for trade receivables and amounts due on contracts with customers. The expected credit losses on these financial assets are estimated based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

Financial liabilities

At amortised cost

Financial liabilities which are neither contingent consideration of an acquirer in a business combination, held for trading, nor designated as at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. This is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or where appropriate a shorter period, to the amortised cost of a financial liability.

1.8 Finance costs

Finance costs are charged to the profit and loss account and other comprehensive income over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

1.9 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

1.10 Interest income

Interest income is recognised in the profit and loss account and other comprehensive income using the effective interest method.

SMITHS INTERCONNECT GROUP LIMITED

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 JULY 2023**

1. Accounting policies (continued)

1.11 Current taxation

The tax expense for the year comprises of current tax only. Tax is recognised in the Income Statement, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

The tax on profit on ordinary activities includes amounts paid or received for Group relief in respect of tax losses claimed and surrendered in the current year.

2. Judgments in applying accounting policies and key sources of estimation uncertainty

Impairments

Investments and other assets are tested for impairment if there are any indications of impairment, in accordance with the accounting policy set out above. The recoverable amount of investments and assets are determined based on value in use calculations unless future trading projections cannot be adjusted to eliminate the impact of a major restructuring. The value in use calculations require the use of estimates including projected future cash-flows and other future events.

Recoverability of intercompany loans receivable

"The recoverability of loans is assessed applying the methodology of IFRS 9 by looking at the credit quality of the subsidiary and any support available to the subsidiary. These calculations require the use of estimates including projected future cash-flows and other future events.

3. Operating profit

The Company made an operating loss of £914,000 (2022: profit of £64,000).

4. Directors' Remuneration

During the year, no director received any emoluments (2022: £nil).

5. Employees

Employees of other Smiths Group companies perform all the administration of the Company's UK affairs. No charge for their services has been levied upon the Company in the current or previous year.
