Who we are

**Scaling the
world's**

businesses with tech

We're Ingram Micro—
a people-first
technology partner
giving businesses of
all sizes a
financial advantage
by providing a B2B
platform with
a massive global
network and game-
changing expertise
and services. B2B,
meet the
seamlessness of B2C.
Streamline operations,
reduce time to market
and stay far ahead of
the competition, with
a partner
who supports you
from end to end.

The Tenets of Our Success

Our dedication to a shared set of principles unites and guides us to better decisions and behaviors, enabling us to focus on the success of our business partners and associates.

Results

Delivering successful outcomes and a superior experience for everyone, every time, matters for our business partners, ourselves and our teams.

Courage

Embracing change and making difficult decisions delivers better results to our customers, suppliers and fellow associates. We encourage innovation and a culture of always doing what's best for our partner ecosystem.

Integrity

Responsibility

We exemplify the highest ethical standards, led by honesty, fairness and dignity in every action we take, everywhere, every time, with everyone.

We say what we do, and we do what we say. We are responsible for our individual and team actions, meeting our customer and financial commitments, and recognizing our social, community and environmental responsibilities.

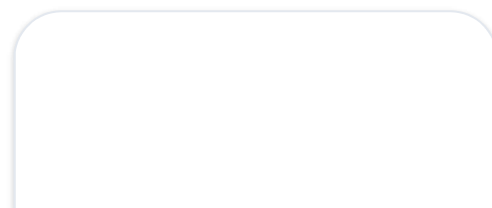

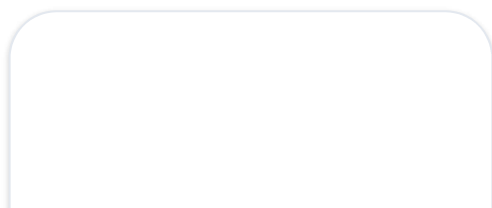

Imagination

Creativity, agility and resourcefulness reinforce a competitive, entrepreneurial spirit. There is no substitute for forward-looking actions and the desire to achieve more.

Talent

Our people and their diverse talents define us. We are committed to learning, collaboration, transparency and innovation. Attracting, inspiring, retaining and celebrating our best individuals is the foundation of our success.
